VOL. CIII., NO. 547 — VICTORIA, B. C., SATURDAY, JULY 15, 1911 — TWENTY PAGES

IN FURTHERANCE OF ARBITRATION

Anglo-Japanese Alliance is Modified so as to Clear the Way for Treaty of Britain and States

FORMER ARTICLES ARE OMITTED

Time of Alliance is Also Extended by Six Years—Change Results Largely from Wishes of Dominions

LONDON, July 14.—The Anglo-Japanese alliance has been modified to exclude the United States from Great Britain's possible enemies, and the life of the alliance has been extended nearly six years by the new version of the treaty which Sir Edward Grey, the British secretary of foreign affairs, and Count Kato, Japanese ambassador at London, signed yesterday.

The original agreement, signed August 12, 1905, included eight articles and a preamble. The only practical difference between that and the new version is embodied in article 4, which reads: "Should either high contracting party conclude a treaty of arbitration, then nothing in this agreement shall entail upon such contracting party any obligation to go to war with the power with whom such treaty of arbitration is in force."

The preamble states: "The government of Great Britain and the government of Japan, having in view the important changes which have taken place in the situation since the conclusion of the Anglo-Japanese agreement of August 12, 1905, and believing that a revision of that agreement responding to such changes would contribute to the general stability and repose, have agreed upon the following stipulations to replace the agreement mentioned."

Then follow the objects of the alliance as set forth in the previous draft. These include the consolidation and maintenance of peace in the regions of Eastern Asia and India, the preservation of the common interest of all the powers in China and the maintenance of the territorial rights of the contracting parties in the regions of Eastern Asia and India and the defense of their special interests in those regions.

Articles three, four and six of the treaty of 1905 are omitted in the revised version. Article three of the old version stipulated that "Japan, possessing paramount political, military and economic interests in Korea, Great Britain recognizes Japan's right to take such measures for the guidance, control and protection of Korea as she may deem proper and necessary to safeguard and advance those interests, providing the measures so taken are not contrary to the principle of equal opportunities for the commerce and industry of all nations."

Article four related to the recognition by Japan of Great Britain's rights to safeguard her Indian possessions.

Article six specially referred to the war between Japan and Russia at that date and Great Britain's neutrality.

The revision of the treaty is known to have been largely the result of the discussion of foreign affairs at the imperial conference, and was responsive to the wishes of the colonies, particularly Australia. That it was consummated so soon was a surprise to the diplomats. The extension of the time of the alliance is another surprise.

As Viewed at Washington

WASHINGTON, July 14.—This government today, on receipt of the news that there had been a modification of the British-Japanese alliance treaty, expressed the greatest gratification, for it is generally considered that this modification removes the last obstacle to the confirmation of the proposed arbitration treaty between this nation and Great Britain.

President Taft, when advised of the action, expressed no surprise, but showed plainly his satisfaction. He indicated that his previous advices had assured him that the two countries would agree to such a modification. The state department is equally pleased as it clears the way to adoption of the arbitration treaty by the senate.

Mr. Forget Retires

MONTREAL, July 14.—Rodolphe Forget has resigned as a member of the executive committee of the Montreal Stock Exchange.

POWELL RIVER FIRE

Large Wooden Block Owned by Paper Company Destroyed—Firms Lose Heavily

NANAIMO, July 14.—The most disastrous fire thus far in the new town of Powell River occurred yesterday morning, when fire was discovered in the large wooden block owned by the Powell River Paper Co., and containing the principal business houses of the town. The flames made rapid headway, and despite the efforts of the firemen, who worked hard, the entire block was completely destroyed, with all its contents.

The new Powell River hotel, just across the street, was in danger for a time, but the flames were prevented from spreading and the hotel was saved.

The following firms suffered a total loss: Powell River Paper Co., general store and office: Fay's barber shop, Briggs and McFall's store and pool room, and Dr. Henderson's drug store.

The origin of the fire is a mystery. The watchman passed the building on his rounds about one o'clock but saw no signs of the fire in the buildings. The heaviest losers are Fay, who had no insurance on his barber shop, and Dr. Henderson, whose drug store was also uninsured. Briggs and McFall's pool room and store had some insurance. The loss of the Powell River Paper Co.'s general store will be heavy, as a new stock had just been put in and they had but little insurance.

CANADA HAS MADE POOR BEGINNING

Admiral W. H. Henderson Says Dominion is Only Playing at Forming a Navy—Comparison with Australia

That Canada compares most disadvantageously with Australia in its beginnings of a naval policy was the statement made by Admiral William Hannam Henderson, R. N., who left for Australia on the R. M. S. Makura last night. Admiral Henderson, chatting with a Colonist representative on the deck of the Makura, said:

"Australia is a long way in advance of other parts of the Empire in its preparations for a navy, and while Canada is playing at the business Australia has gone about the formation of a navy in a business-like way. It is not because my brother is planning the Commonwealth navy that I say this. It is well known that when Australia determined to have a naval unit, it consulted the admiralty, and ascertained the best plan to follow. An admiralty was then formed. Canada has not even an admiralty. Then my brother, Admiral Henderson, was called, and he has sketched a programme providing for eight fleet units, eight battle squadrons, to be built within twenty-two years, with the necessary cruisers, destroyers and submarines for each unit. The Commonwealth is now spending two million pounds a year in its naval requirements.

"Of course it is in the Pacific that Canada requires its navy most. I can't quite see what your advisors have in view. They have the Niobe and Rainbow bought from the admiralty, and I am told that another cruiser, an old vessel, is to be bought at scrap price for use as a training vessel. Admiral Kingsmill was in England when I left, I presume arranging for the invitation to shipbuilders to prepare plants in Canada for the construction of the vessels decided upon.

Canada's Quiesence

"Canada does not seem to have the same amount of fear of strife in the Pacific as that which prevails in Australia, and personally I am not alarmed as to any grave danger in the position, at least from Japan. Japan could not possibly take any steps in the Pacific without the consent of Great Britain and the Empire, and also of the United States, for in my opinion Japan could not stand up against the United States. I am a great friend of the Japanese, and I do not think that the rulers of Japan have any such intentions as many credit them with in the Pacific. Japan has made great advances, going from the feudal system to a place as a world power within my lifetime, and there is no doubt but that the nation will become more powerful, but I do not anticipate danger to Canada or Australia from Japan."

Admiral Henderson is no stranger to Victoria; in fact he is an old-timer of this city. He made his first visit to Canada in 1860, when he was a midshipman attached to one of the vessels of the squadron, which accompanied the late King Edward when Prince of Wales on his visit to Canada, and in 1870 he came to Esquimalt on the frigate Liverpool, one of the vessels of the Flying Squadron, which came to Esquimalt in that year. He was on the Esquimalt station again from 1872 to 1876, when he was on the sloop-of-war Petrel, and in 1873 he took part with the British naval forces from Esquimalt in the evacuation of San Juan island after His Majesty Emperor William, of Germany, had made boundary award in favor of the United States after the joint occupation of the island for eleven years by British and United States troops following the dispute which began over the killing of a Hudson's Bay pig, and at one time threatened war.

ROLL OF DEAD NOT SO LARGE

Later Advices from Porcupine Indicate that Fire Victims will Number Little Over One Hundred

MINISTER ALLEGES EXAGGERATION

Two of Injured Die at New Liskeard—Relief Trains Carry Ample Supply of Provisions to District

TORONTO, July 14.—Nothing like an accurate estimate of the victims of northern fires is yet possible, but already the list of dead exceeds a hundred. Two names were added this morning, when Mrs. Meek, mother of the Dome mine manager, and John Bigelow, an employe, died at New Liskeard.

Forty bodies, it is said, have been discovered from Porcupine Lake.

The Porcupine relief committee is sending searching parties through the burned area. Many are being reported missing. Telegraph wires from the far north are clogged with matter filed for transmission which is expected to throw light on the number of victims. A despatch from Haileybury says that Matheson, a town of 900, is encircled by fire.

At Earlton, 190 miles north of North Bay, several houses have been burned. Fires are raging on the Quebec side of Lake Temiskaming, and many settlers around Sudbury have been burned out and have had to flee for their lives.

Relief trains, with provisions, tents and blankets, are being rushed to the affected district over the government railroad, and the food supply at Porcupine is now adequate.

Hon. Frank Cochrane, a member of the Ontario government, whose department of lands and mines is particularly responsible for the settlement of North Ontario, said today: "While we do not wish to minimize this terrible affair, there is every justification for feeling that newspaper reports have been exaggerated. We are not blaming the newspapers. They get the best information they can, but from the infor-

(Continued on Page 9, column 4.)

AVIATOR MARS HAS BAD FALL

Aeroplane Plays Him False When Several Hundred Feet from Ground—Has Little Chance of Recovery

WIFE IS WITNESS OF ACCIDENT

ERIE, Pa., July 14.—J. C. (Bud) Mars, the well known American aviator, probably was fatally injured here this afternoon when he lost control of his machine in a flight, and fell from a height of several hundred feet to the ground. The heavy bi-plane dropped on top of him. His injuries are of such a nature, it is said, that there is practically no hope of his recovery.

The aviator's wife witnessed the accident, and tonight her condition is serious, due to the shock.

Mars had made one successful flight early in the afternoon. He was in the air for the second time when the accident occurred. Several thousand spectators were watching him. He circled the field several times at a height of several hundred feet. Suddenly the machine made the dip downward, and Mars was seen to jerk at something in an effort to regain control. It was a futile attempt, however, and an instant later the bi-plane struck the ground. The machine was completely wrecked, and Mars lay under it. He was covered with blood, and at first it was believed he was dead. Doctors Bouton and Giegelie, who were present as spectators, were soon at his side, and he was carried to an improvised field hospital. The serious nature of Mars' injuries was evident, and he was rushed to a hospital.

Tonight Dr. Bouton issued a statement that the aviator's chest was badly injured, that he had sustained concussion of the brain and suffered internal injuries, while he is also bruised from head to foot.

The amazed spectators stood still for a moment. There was a scream, and Mrs. Mars, the birdman's wife, rushed toward the wrecked machine. Before she reached her husband's side, however, she was overcome, and was carried from the field.

MINING MEN'S WANTS

Spokane Meeting Requests Establishment of Mint at Seattle and More Coinage

SPOKANE, July 14.—At a meeting today of the mining men's club of Spokane, the following resolution was adopted:

"We recommend: That congress direct the secretary of the treasury to establish a mint at Seattle, Wash., for the coinage of gold and silver, that the mints at Denver and San Francisco be ordered to resume coinage of both metals and that all demands for the coins of either and both metals in the district lying west of the Mississippi river be filled from one or the other of the mints herein named; transportation charges to be paid by the federal government and charged against the mint from which shipment was made."

It also resolved that the Spokane Mining Men's club favors the placing of lead and zinc and their products on the reciprocal free lists.

Michigan Fires Die Out

DETROIT, Mich., July 14.—Reports tonight from northern Michigan indicate that now there is no reason to fear further serious danger from the forest fires. Rains have fallen near East Tawas, Au Sable and Alpena, and lighter showers at other points in the fire zone. The wind also has died, and isolated settlements which have been constantly threatened with destruction, are now safe.

HUDSON'S BAY STORE IN CITY

Mr. H. E. Burbidge Says Structure for Douglas Street will be second to None Throughout System

"Our policy in Victoria will be to go forward as rapidly as possible with our new store just as soon as the present lease on the site expires. We will build not only for the present but for the future, with the intention of establishing a store that is second to none in our system. We realize that there is a fine opportunity here and that if we do not go in and seize it someone else will."

These were the expressions of Mr. Herbert E. Burbidge, Stores Commissioner for the Hudson's Bay Company, who arrived in Victoria yesterday to make the preliminary arrangements for the erection of a mammoth departmental store on the site recently purchased by the company on Douglas street, between Fisguard and Herald streets.

Mr. Burbidge was expected in Victoria on Thursday, but was detained in Vancouver, where the company is making ready to erect a $1,500,000 department store building covering half the block bounded by Granville, Georgia, Dunsmuir and Seymour streets. Mrs. Burbidge and Master Burbidge arrived here two weeks ago, Mrs. Burbidge being desirous of spending the interim in taking advantage of Victoria's famous summer climate.

Mr. Burbidge was not in a position to say yesterday just what shape the plans for the store in this city will take. His visit here now is for the purpose of deciding that, and when the lease on the property now held by the St. John's Church expires, the plans will be ready and work will be gone on with as rapidly as possible.

A Progressive Policy

Mr. Burbidge, who is a most pleasing and affable gentleman, surprisingly young for one holding a position of such responsibility, was emphatic in his affirmation of the statement that the Hudson's Bay Company is in the field of department store development with a progressive policy.

Describing the general purpose of the company with regard to its stores Mr. Burbidge said that the Hudson's Bay was entering into competition with some of the strongest department store syndicates in Canada. It realized that in order to get its share of the trade it must keep just a little bit ahead of the times always, and this was its ambition. The store in Victoria would be opened and operated along these lines.

Speaking of the plans of the company elsewhere, Mr. Burbidge described the operations in Winnipeg, where the company has purchased a million dollars worth of land on Portage avenue, not more than two or three blocks above the great Eaton store. There the Hudson's Bay, which formerly operated a large store on Main street south, will build a monster department building. It has also completed arrangements for a $50,000 store at Vernon and will build suitable stores in other British Columbia points, paying especial attention to outlying districts, and endeavoring to keep pace with railroad extension. The company is also now preparing to build a big store at Calgary.

Bishop of Regina

WINNIPEG, July 14.—Rev. Father Mathieu, of Montreal, formerly rector of Laval University, was today appointed Bishop of Regina. This is the first bishop for that diocese.

CANADA UNDER JAPAN TREATY

Two Countries Continue to Treat Each Other's Products on Terms Allowed "Most Favored Nation"

CABINET HOLDS SHORT MEETINGS

Programme in Regard to Reciprocity Agreement Not Likely to be Known Until Tuesday Next

OTTAWA, July 14.—The Canadian government has been advised by the Colonial Office that notwithstanding the abrogation of Japan's commercial treaty with Great Britain, to which Canada became a party a few years ago, Japan will continue to treat Canadian products under the "most favored nations" terms. Accordingly the government here has proclaimed the act passed in May last, empowering the Canadian government to improve the existing scales of duty on Japanese products pending the conclusion of a new commercial treaty.

The cabinet held two comparatively short sittings today. The fact that there will be no further meetings until Tuesday morning indicates that the government has decided upon its course of action in regard to the sessional programme, and sees nothing further to be done until the attitude of the opposition has been disclosed on Tuesday next.

A real indication of the situation will not, however, be forthcoming probably until a week from Monday next, by which time the United States Senate will have passed the Canadian reciprocity pact. Then the government will be obliged to state its position and the country will know whether there is to be a renewal of the protracted fight over reciprocity, or whether the government will make the attitude of the opposition an excuse to rush to the country in the hope of securing a snap verdict on the sole issue of the Canadian obligation to make good the undertaking of responsible ministers to conclude the reciprocity agreement.

ALASKA DELEGATE MAKES CHARGES

Says Attorney-General Allowed Statute of Limitations to Run Against Men Guilty of Frauds

HOUSE COMMITTEE TO INVESTIGATE

WASHINGTON, July 14.—After secret consideration of charges made by Delegate Wickersham of Alaska that Attorney-General Wickersham deliberately permitted the statute of limitations to run against agents of the Alaska syndicate who defrauded the government, through perjury, to the extent of $50,000, the House committee on judiciary has determined to report favorably a resolution of inquiry offered by Delegate Wickersham. The resolution would call upon the attorney-general to furnish the House with all documents, affidavits and testimony in his possession relating to an affidavit submitted to him more than a year ago and sworn to by H. J. Douglas, former auditor of the Alaska syndicate.

Delegate Wickersham startled the committee when in executive session he produced a copy of an affidavit relating to an alleged criminal act committed by Captain D. H. Jarvis, of the Alaskan syndicate, and formerly prominent in the government revenue cutter service, who committed suicide in Seattle on June 2, the day following the introduction of the Wickersham resolution calling for production of the papers in the case, and by John H. Bullock of the John J. Sessnon Coal company of Nome. It was charged that through connivance of these men the government was defrauded on coal contracts, and that evidence to that effect was permitted to remain unacted upon by the attorney-general's office for more than a year, until period specified in the statute of limitations expired last May.

The attorney-general when seen tonight, declined to discuss the action of the committee. His friends intimated that the charges were old and that a certain phase of them still was under investigation. They declined to indicate just what this phase was.

SEEKING MURDERER

Another Man Taken Into Custody in Connection with Double Tragedy at Rainier, Wash.

TACOMA, July 14.—Swan Peterson, a section hand wanted in connection with the double murder at Rainier last Monday night, in which Archie Coble and his wife were killed with an axe, is in the Pierce county jail tonight. Sheriff Longmire of this county, and Deputy Stenso, this afternoon found the man at Meeker's Junction, a suburb, where he was waiting to take a car for Puyallup.

Peterson made no attempt to deny his identity, but disclaims any knowledge of the Rainier murders. He explains his leaving Rainier after working a day and a half without waiting to collect his pay, by saying that he found his wages would amount to but $2.25 and his board bill $2.65, so he concluded to leave and let his landlord collect the wages. Peterson came to Rainier from Portland, Ore.

Suspicion was directed to Peterson by the report that bloodstains were found on the bedclothes of the room he occupied at Rainier. Word from Rainier is to the effect that another man was arrested at Yetme, Wash., and is now in custody at Rainier.

Arthur Pierce, a half-witted Rainier resident, has been released.

Tussock Moth in Montreal

MONTREAL, July 14.—The tussock moth has ruined thousands of trees in Montreal parks.

MAP DISTRICTS FOR PRE-EMPTORS

Inauguration of Policy Reorganizing Land Surveys Marks Fulfilment of Promise Made by Hon. W. R. Ross

In accordance with a promise given the public of British Columbia by Hon. William R. Ross upon his acceptance of the responsibilities attaching to the administration of the Department of Lands, there are now almost ready for issue in that Department the four first of a series of pre-emptors' maps of available lands, surveyed, which await colonization and development by new agricultural settlers. The maps in question are based very largely upon the results of the activities of the corps of surveyors which has been employed in the opening north of British Columbia, where the field forces have largely been concentrated of late years, in consequence of the assurance of early facilities of communication for these areas through Grand Trunk Pacific and Canadian Northern Pacific construction. That mapping the districts had necessarily to await the completion of surveys explains the non-appearance earlier of these eagerly awaited documents.

Of the maps now in hand, Sheet 1 deals with the localities in Nechaco Township and contiguous to the Stuart River, Sheet 2 covering and delinating the locality of the Blackwater. Both of these are now in the hands of the printers and shortly to be issued. Sheet 3, of the Fort George locality, is at present almost complete, and Sheet 4—the Stuart Lake section—is well under way.

Necessity for reorganization of the system of land seurveys and classifications has long been recognized by the government. The obviously desirable changes require time for their consummation necessarily, but a beginning has been made, in the revision of the instructions this season issued to the surveyors taking the field and in the appointment of an inspector of surveys, in the person of Mr. W. S. Drewry, at present engaged on a first official tour through the Kootenays.

Hereafter surveyors employed under government auspices will be required, in so far as possible, to supplement their field notes with reports on forms prescribed by the Department of Agriculture, as to temperatures, rainfall, soil characteristics, timber, etc., which information will be tabulated and compiled in ready reference form for the convenience of land seekers.

Field Parties at Work

The force of surveyors at present engaged in field work for the Provincial Department of Lands numbers some thirty-two parties, these being widely scattered throughout the awakening northern areas and on the outlying islands, their general assignment being as follows:

1, P. C. Coates, Cortes Island; 2, J. H.

(Continued on Page 9, Column 5.)

REVENUE FOR FISCAL YEAR

Exceeds by Nearly Three and a Half Millions Anticipations of Government—Announcement by Acting Premier

ANNUAL MEETING OF BOARD OF TRADE

Hon. Dr. Young Delivers Inspiring Address Summing up Material Potentialities and Prosperity of B. C.

An excellent and comprehensive address from the Hon. Dr. H. E. Young, acting premier, a brief but pointed speech from His Honor the Lieutenant-Governor, the re-election by acclamation for another term of last year's president, Mr. H. Goulding Wilson and of Secretary F. W. Elworthy for the twenty-second time, were features of the thirty-second annual meeting of the board of trade of the city of Victoria at the board rooms yesterday afternoon. There was an exceptionally good attendance and great interest.

The elections which were first proceeded with resulted, after the re-election of Mr. Wilson and Mr. Elworthy in the election of Mr. J. J. Shallcross as vice-president. In speaking to the call for ballot on the new council Mr. D. R. Ker made a plea for new blood. There were, he said, many new and estimable business men coming into the community as representatives of large vested interests, and it was right that they should be given places on the committees and council. The ballot for the new council for 1911 turned out as follows: Messrs. J. O. Cameron, George Carter, Lindsey Crease, R. L. Drury, James Forman, Dilbert Hankin, D. R. Ker, Simon Leiser, C. H. Lugrin, J. A. Mara, A. W. McCurdy, H. A. Munn, F. A. Pauline, Hon. E. G. Prior and H. B. Thomson.

Following are the members of the board of arbitration for the ensuing term: Messrs. J. W. Ambery, E. V. Bodwell, J. O. Cameron, Lindley Crease, D. Doig, James Forman, Richard Hall, Dilbert Hankin, M. B. Jackson, D. R. Ker, C. H. Lugrin and Andrew Wright.

Applications for membership were received from six sources, and the following were elected to membership: Messrs. A. E. Starr, E. Ulin, John A. Taylor, R. E. Larmour, T. Beauchamp Tye and T. D. Pattullo.

Hon. Dr. Young and Lieutenant-Governor Paterson, when they arrived, received general ovations. President Wilson expressed the pleasure of the board at having them present. He said, in referring to the Lieutenant-Governor that the members of the board wished to congratulate him upon the elevated position he had attained to since leaving the president's chair of the board of trade.

Never So Prosperous

His Honor the Lieutenant-Governor, in addressing the board congratulated the members upon the work they had accomplished during the past year. Evidently many of the old outstanding scores had been settled to the satisfaction of all concerned. The country had never been as prosperous as it was now, his honor hardly felt it necessary to remark that to the members of the board. Yet such a realization could not be too much emphasized. His honor hoped that the work of the board during the coming year would prove to be as successful as its efforts in the year just past.

The Hon. Dr. Young, acting premier of the province, explained at the beginning of his masterly address that he realized that it had been customary for a member of the cabinet to address the board at its annual meetings, and therefore, he had not hesitated to cancel all other engagements, when advised by the finance minister, Hon. Price Ellison, that the latter could not be present, to come and do his best to fill the bill on behalf of his confreres in the cabinet. The speaker then congratulated President Wilson most heartily upon his re-election.

Provincial Revenue

There were many significant points in the Hon. Dr. Young's address, chief among which was his assertion that the province is not half optimistic enough. At the beginning of 1910, the speaker declared, the government, feeling very optimistic, as they thought, had estimated the revenue for the year at $7,[illegible], and had made so bold as to [illegible] amount in its appropriations [illegible]

VICTORIA VANCOUVER NELSON

REVENUE FOR FISCAL YEAR

(Continued from Page 1.)

ture of an over-draught. What was the government's surprise then when it was found that the actual revenue for the year was no less than $10,481,419.61.

Another point referred to by Dr. Young was the decision of the government as a result of a letter sent to Mr. McBride by the secretary of the Vancouver Island Development League, to have a thorough investigation made of certain by products of waste timber in the hope of discovering methods of making a livelihood for the new settler while he was clearing his land. For this purpose Mr. Carmichael, the provincial assayer, had set out for the west coast fully equipped for an investigation. Among other things Mr. Carmichael will endeavor to test the assertion of scientists that the waste wood of the island contains principles from which cordite and other explosives may be manufactured. If the test proves successful the government will establish an experimental station, and endeavor to teach settlers how they may make somewhat of an income while clearing their lands.

Speaking on agriculture Dr. Young said there was probably a greater opportunity in the development of the province's agricultural area than in any other field of endeavor just at present. The population was growing rapidly, and the production was not nearly up to the demand as was demonstrated in the immense imports during 1910 of poultry and eggs and agricultural products.

In the main the Hon. Dr. Young's address was as follows:

Hon. Dr. Young.

"After reading your valuable and comprehensive report, one is constrained to congratulate you on the outstanding facts which it discloses. In the first place one is struck by the very great amount of hard, earnest work which it represents, and secondly, though temperate and formal in its wording, it conveys to the most casual reader a spirit of optimism, a conviction that all is well with Victoria, that the future of your city as a great commercial and industrial centre is secure. As members of the pioneer board of trade, gentlemen, you may justly feel gratified at the results of your efforts towards the upbuilding of your city and their wide reaching effects for the prosperity enjoyed by Victoria is fully shared by the whole province.

"Many important subjects are dealt with in the report, but none more fraught with promise of realization of your most sanguine hopes than the railway building now in progress on Vancouver island. When we consider the benefits and the development in all lines of industry, secured from the operation of the Esquimalt and Nanaimo railway in the comparatively small area which it serves, it is difficult to realize or to estimate the expansion in business which must follow the completion of the Canadian Northern Pacific from Victoria to Barkley sound, and the extensions of the E. & N. to Alberni, Cowichan lake and Campbell river. The building of these roads means new industries, new populations, new trade centres—a complete transformation—the waste places dotted with comfortable homes, surrounded by farms, gardens and orchards, with herds of fat cattle and sheep where the deer now roam unmolested, and all paying tribute to Victoria.

Magnificent Island.

"These new railways will provide about 400 miles of direct and rapid transport and give access to immense reserves of timber, minerals and other natural resources, inaccessible at present, but when all is said they will only open up a small fraction of this magnificent island. When the last spike has been driven on them their builders, looking further afield, will discover new worlds to conquer, in that vast and almost unknown territory lying north of the Alberni canal and west of the Campbell river. A very few years will elapse before the locomotive whistle will echo through the interior valleys as trains thunder to their destination on the shores of Nootka and Quatsino or onward to Cape Scott, to connect with fast steamers to the Queen Charlottes. Prince Rupert and Stewart. In those days, fast approaching, Victoria will have two or three times its present population and will be on the fair way to assuming her deserved title—the London of Vancouver island—for no combination of circumstances can rob her of her supremacy. Other cities, important and flourishing, may arise, but all will contribute to her greatness and stability. All the signs of the times indicate a marvellous expansion in the trade of this port. With the ownership of the Songhees reserve no longer in doubt, two great transcontinental railways actually established and a third preparing to enter; with new steamship lines making this a regular port of call; with a coasting fleet ever increasing; with two drydocks, capable of handling vessels of all classes, you have every reason to feel confident—it is no longer a question of bringing trade to Victoria, the problem which now confronts you is how best to handle the business. The old premises are getting too small for the demands upon it, greatly increased harbor facilities and more expeditious methods of disposing of freight are essentially necessary to make Victoria one of the great marts of the world, a destiny guaranteed by her commanding geographical position. It is for you, gentlemen, to use your best endeavors to secure those artificial aids to nature which the situation demands, and be assured that the provincial government will be prepared to do everything within its powers to assist your efforts.

Wealth of Raw Materials.

"The wealth of raw materials tributary to Victoria, rendered available by these railways, and their future extensions, is sufficient to maintain an industrial population of several millions. Take three items—timber, coal, fisheries—anyone of which fully developed would support a multitude of people; combined there is absolutely no reasonable limit to the number who could live in comfort from their exploitation.

"Now, in the matter of timber. The royal commission on forestry finds that of 15,000,000 acres of first-class standing timber credited to the province, Vancouver island possesses a very large proportion—sufficient to supply the whole of Canada with lumber for a century. It is therefore an acceptable fact that if Vancouver island were without any other resource her timber alone would render her independently wealthy. The same may be said of her coal, and to a lesser degree her fisheries. Then there are the minerals, iron, copper, gold and silver, scarcely touched as yet. We have not begun the development of these resources. We have felled some of the choicest timber, but as yet the industry is in the first stage—the destructive stage—for all the minor industries subsidiary to the lumber business have been overlooked or neglected. We have not reached the economic stage in which every portion of every tree will be utilized, as it is in the East, in the manufacture of woodenware, paper pulp and paper. The time has not been ripe, population was wanting, but the day is fast approaching when these small industries should add to the general revenue as much as the main industry contribution at the present moment.

Mineral Output

"Our coal measures have only been tapped. For the present output of the mines, though large, is only a small fraction of possible production, and the iron deposits have not been touched.

"The immense importance of our mines is shown by the final statistical returns of production for the year 1910. The gross value of the output for the year being $26,377,066—the largest amount ever produced by this Province, being nearly $2,000,000 greater than in 1909.

Of this amount $6,077,380 is to be credited to gold and $11,108,335 to the collieries of the Province, while there was produced nearly $5,000,000 ($4,871,512) worth of copper.

In the metalliferous mines there were employed 3,709 men and about the collieries 7,758 men.

"The importance of metal mining to the Province can scarcely be over estimated, but as far as the general progress and future of the Province is concerned, our coal deposits are of greater and of more far-reaching importance, since fuel is the root of all manufacturing industries—and in these latitudes is one of the essentials of life.

"What these coal resources amount to can be gathered from the report of the Provincial mineralogist—who in his 1909 report (Page 163) points out the importance of the East Kootenay coal field, in which in B.C. it is calculated there is available for mining about 36,000,000,000 tons (thirty-six thousand million tons of coal) or thirty six billion tons.

"The same authority gives in his 1910 report—under the head of the 'Coal Potentialities of B. C.' a synopsis of the developed and partly developed coal fields of the Province, in which is quoted the estimate of the coal geologist of the Geological Survey showing that the Province has over 40 billion tons of bituminous coal and 61 million tons of anthracite coal, in the fields already known, while new areas are being disclosed each year.

"The present known fields are therefor capable of keeping up the present rate of production for 13,000 years, or ten times the present production for 1,300 years, by which time it is probable we will have ceased to use coal as fuel.

Agricultural Production

"It is gratifying to note that there has been a very substantial increase in the agricultural production of the Province during the past year as will be seen from the following comparison statistics, furnished by the Department of Agriculture, for 1909 and 1910:

	1910
Live Stock	$ 2,571,865
Dairy Produce, butter, eggs etc.	3,645,405
Grain and Hay	5,347,630
Fruit	1,939,110
Meats	675,475
Eggs and Honey	159,477
Miscellaneous	60,162
Total	$14,399,090
1909—Estimated total production agricultural products	$ 8,500,000

"Dairying and poultry raising while showing considerable increase are not keeping pace with the requirements or receiving the attention warranted by their importance. With the growth of the towns farmers are finding more profit in supplying milk and cream than sending them to the creameries, causing a diminution in the production of butter and an increase in importation amounting to nearly three million dollars.

The interest in poultry is noticeably increasing in the Province, and especially on Vancouver island. Several large poultry farms have been established recently in Victoria, Cowichan and other nearby districts and their success is encouraging others to embark in this important industry. There is probably no part of the world more suited to profitable poultry raising than Vancouver Island and the adjacent Gulf Islands, the climate being ideal and the facilities for marketing unsurpassed, yet the supply of poultry and eggs falls far short of the demand, importations amounting to $1,899,000 in 1910.

Fruit Growing Industry

"There is also a marked increase in the acreage of new orchards on Vancouver Island, and it is satisfactory to note that fruit growers are falling in to modern, scientific methods of culture. Many of the orchards in the vicinity of Victoria would be a credit to any country, and are models for beginners. The Department of Agriculture has six horticulturists in the field giving demonstrations in care and management, and the inspection of all imported nursery stock and spraying regulations are being rigidly enforced. The Government has established demonstration stations on the Island for the education of fruit growers in the most approved methods of establishing and conducting orchards. We are assisting and encouraging the agricultural industry generally by grants of money to Farmers' associations and institutes, the Fruit Growers' association Agricultural Fairs association, Dairymen's association, Stock Breeders' association, Poultry association, each receiving an annual grant of $3,000. The Farmers' institutes now number 57 with a membership of about 6,000, and the Women's institutes, lately inaugurated for the purpose of co-operative work in dmestic science, hygiene, and all that makes for health and comfort in the home, are proving very successful. There are now 22 of these with over 700 members.

"The work of the department of agriculture has been greatly extended, and now in addition to institute lectures, orchard demonstrations, inspection of herds and dairies, officers of the department are conducing thirty fruit packing schools, holding winter short courses in agriculture, stock judging contests, fruit packing contests, inspection of apiaries, and performing many other minor but important duties for the benefit of the farmers.

Exhibition Successes

"The very great success won in Eastern Canada and Great Britain by British Columbia fruit in 1910 was a gratifying feature of the year. The winning of the Hogg memorial medal of the Royal Horticultural Society was an event in the fruit growing world, which places British Columbia on a plane by herself, for this medal is only given for super-excellence, and this was the first time the society felt justified in awarding it.

"Victoria's fruit growing capabilities were prominently demonstrated at the Vancouver apple show, where the first prize was awarded to a carload of King apples, the produce of this district, in competition with Oregon, Washington and the mainland.

"The progress made in agriculture in the country immediately tributary to Victoria, while considerable, is not all that could be desired, for the city continues to import large quantities of food which should be produced at home. There is too much waste land on Vancouver island, but how to turn it to account is a difficult problem. The experience here and in Washington is that only the very best quality of soil will bear the expense of clearing, and that it does not pay to destroy merchantable timber to bring land under cultivation. It appears reasonably certain that we may not expect any great increase in the area of cultivable land near the city for some time to come, and that being so all efforts should be directed to the encouragement of intensive farming, so as to utilize every available acre. The cultivation of vegetables by methods long practiced in France, and now being extensively used in England, would produce all that the local market could consume and leave a surplus for export. The proposal to throw open to settlement small open spaces of arable land which occurs in heavy timber, is of doubtful expediency as it would greatly increase the risk of forest fires, and would expose the settlers and their families to being hemmed in by the flames without means of escape. There is reported to be over 100,000 acres of agricultural and grazing lands lying inland between the head waters of the Salmon river and Nimkish lake, but these will only be available for settlement when the country is opened up by roads. The making of roads into that district will be a costly undertaking, as the country bordering the sea and for some distance inland is very rough and mountainous. The government is doing a great deal of roadwork on the island being spent in 1910.

Expenditure works, 1910-11—round numbers—$4,250,000.

For Island

Roads and trails	$438,716.02
Bridges	33,698.31
Wharves	18,124.66
Schools	12,335.00
Repairs parliament buildings	18,095.65
Improv.'t par. grounds	21,730.66
	$542,700.30

"The clearing of logged off lands by the char-pit and other methods is being studied by officials of the agricultural department, and it is hoped that the experiments will lead to the discovery of a reasonably cheap method for the disposal of stumps and roots.

Tide of Immigration

"The tide of immigration flowing into British Columbia is bringing many new settlers to Vancouver island. The majority is composed of people of more or less means, who prefer buying improved or partly improved farms to staking homes in the undeveloped districts, but many others choose the hardships of pioneer life. Of the latter class 164 recorded pre-emptions in 1910, the Alberni and Victoria land districts, and 12 on the Gulf islands, a total of 176 heads of families, representing an addition of about 550 to the population, and 25,000 more acres of land occupied. The number of persons who purchased land from the government, the E. & N. Railway Company, and private owners was much greater, but of these the number who bought land for actual settlement is not available. To facilitate settlement as much as possible the government is surveying tracts of land in different parts of the island, last year $15,676 was devoted to this work. Under the new regulations adopted by the Hon. the Minister of lands, surveyors are required to give detailed descriptions of every section, so that the intending settler may know exactly the quality of the soil, quantity of timber, [illegible] and other useful information [illegible]

RECIPROCITY AND CANADA'S TRADE

Mr. G. H. Barnard, M. P., Addresses Residents of Metchosin District on Tendency of Proposed Pact

Reciprocity and its effects on Canada as a whole was the subject of an illuminating address delivered by Mr. G. H. Barnard, M. P., before a large audience gathered in the schoolhouse at Metchosin last evening. The meeting was conducted under the auspices of the Conservative association of that district, and the remarks of Victoria's representative in the Dominion legislature were listened to with striking attentiveness, the points against the pact, as they were made clear, being accorded appreciative applause. Mr. H. D. Helmcken, K. C., president of the organization, occupied the chair and with him on the platform were Mr. D. Henry and Mr. Heatherbell, both prominent residents of the district, and Mr. H. Pooley.

In a few introductory remarks Mr. Helmcken, in behalf of the association, expressed his deep sense of regret at the death of Mr. Thomas Earle, a pioneer Victorian and for many years the member for the city in the federal parliament. He was sure that he was speaking for all those present when he took advantage of the opportunity to convey to the bereaved family their sympathy.

Mr. Barnard endorsed what the chairman had said in reference to the loss sustained in the demise of Mr. Earle. He went on to express his pleasure at finding so many in attendance and to congratulate residents on having for their home one of the prettiest of Vancouver island's agricultural sections.

Inconsistent Arguments.

Discussing reciprocity, as proposed by the Liberal government, he declared that he could not believe that it was going to prove the promised panacea for all ills, carrying Canada on a tide of prosperity that would result in general opulence. It was impossible for any one man, figuring out the proposition on an economic basis, to prove that it was going to be a benefit to all classes from the extreme east to the furthest west. He dealt with the inconsistencies of the Liberal speakers who, in one section argued one way and in another in another manner. Time after time supporters of the government were found on different sides of the fence in different parts of the country for the sake of pandering to whatever might be the peculiar local conditions.

He was convinced that, as President Taft had said, Canada was at the parting of the ways. He did not mean that reciprocity would spell annexation, but argued that it had a distinct tendency in that direction. Liberals deprecated the waving of the "Old Flag." In his opinion the "Old Flag" wasn't a bad thing to wave. Certainly it was better than any other. (Hear, hear.)

By reading a number of quotations from records of fact Mr. Barnard showed that ever since 1854 the United States has had covetous eyes on Canada. The repeal of the treaty between the neighboring countries, according to a well-known Liberal at that time, was designed to force Canada into annexation. That end was to be secured by the manipulation of the tariff. Then the proposed modus operandi was the withholding of commercial intercourse. Opinion in the United States had changed. It still was thought that the destiny of Canada and the United States was a much closer relationship than existed but it was thought that the method of hastening that end was not in checking trade between the two but in stimulating it.

A Clumsy Joke.

Mr. Champ Clark, chairman of the House of Representatives in the republic to the south, had made a speech in which he referred to the possibility of annexation. Immediately, because of its likely effect in Canada on the reciprocity pact, this had been repudiated by President Taft. It was claimed that his remarks were but a joke. Mr. Barnard thought the statements were a poor and ill-advised form of a joke. He proceeded to read sections from speeches of other public men of that country. They appeared to think that there was a growing looseness in the Dominion's allegiance to the empire. Speaking for the Canadian west, Victoria's representative wished to put himself on record as being firmly convinced that in this supposition they were entirely wrong, that the inhabitants of the vast territory lying between the Ottawa river and the Pacific coast were truly loyal to the crown. (Applause.) But the feeling to the south was different. If Mr. Champ Clark had been joking it was hardly probably that the other public men and newspapers whose utterances he had cited, all of which expressed the belief that reciprocity was but the first step in a movement that would lead to the merging of the two North American countries, were speaking in the same light spirit.

Mr. Barnard contended that there was no necessity of taking the risk of linking up Canada's fortunes with those of the United States. The proposal was particularly dangerous because of the fact that the Dominion was being invaded by an ever increasing volume of the foreign element. Moreover there was no need for the experiment because the country was never more prosperous. This was the case in British Columbia and it was the same throughout the confederation. He did not think that, under the circumstances, the people wanted reciprocity and that when the time came they would so express themselves. (Applause.)

Imperial Federation.

The effect of the proposed pact on the development of trade within the empire was then dealt with. Until a short time ago the ideal of all parties was the union of the different parts of the nation, commercial as well as in other respects by the introduction of a series of preferential schedules. This sentiment, Mr. Barnard showed by a quotation from a recent address by President Taft, had been realized by him. He had told an American audience that they had what was probably their last chance to lay the foundation for closer relationship with Canada. He had pointed out that the forces for preferential tariffs within the British empire were strong and that therefore they must seize the opportunity while it presented itself.

Mr. Henri Bourassa, the French-Canadian Nationalist, it was shown, asked his followers to support the agreement declaring that it was the most treacherous and effective blow sir Wilfrid Laurier had ever dealt Imperial unity. That, Mr. Barnard said, was the opinion of a man opposed to the federal government generally. He endorsed the administration because, in this instance, it was working against the building of a united empire.

The idea of the G. T. P., the elaborate canal system on the east, and other transportation systems, the speaker declared, was to develop internal trade. These were to facilitate the exchange of trade east and west making Canada as near as possible self-sustaining. Two hundred million dollars approximately already had been expended in that direction. And now it was proposed to sacrifice all this effort because Sir Wilfrid Laurier and Mr. Fielding had reached an understanding with President Taft!

An Inopportune Move

The policy of the Dominion government, as pronounced by the premier time after time up to within a few months ago, was to keep the trade in east and west channels. If this was desirable in 1910 why was it not equally so now? What would be the effect of reciprocity? It would mean that the different provinces would drift farther and farther apart and closer and closer in their relationship with the immediately adjacent States. British Columbia and Washington would become allied. Mr. Barnard did not think that the federal government, as a business administration so-called, putting it mildly, had shown good judgment, if for no other reason in selecting such an inopportune time for entering into the proposed agreement. They should have waited to see what the new Democratic party intended doing with the United States tariffs. In view of the upheaval on the other side it was reasonable to suppose that those newly elected to power would grant Canada, without compromise, all the concessions included in the reciprocity pact. As an indication of the force of this supposition was the fact that the Democrats had added materially to the free list with the hope of reducing the cost of living in America.

The speaker expressed the opinion that Sir Wilfrid Laurier had been badly frightened by the result of a certain by-election in Quebec. He then had concluded that he must do something that would stir the people and that would draw the people's attention from the navy bill. (Hear, hear). In a word he believed that reciprocity was but a red herring.

Concluding he said that the opposition in the Dominion House did not intend to allow the pact to become effective without a fight. Supply would not be granted if it was necessary to go that far. Therefore there would be an election sometime before October and he felt confident that the verdict of the electorate would prove the Conservative party's justification. (Enthusiastic applause).

Vote of Thanks

Mr. Dave Henry, seconded by Mr. Griffiths, tendered Mr. Barnard a hearty vote of thanks. Mr. Heatherbell also spoke in support of it. All claimed that reciprocity between Canada and the United States wasn't desirable at the present time. The latter laid emphasis on the effect of the proposed pact on the fruit growing industry of British Columbia. He argued that the orchards of the adjoining states would, under the contemplated agreement, capture the markets of the northwest. It was a most rascally piece of work to bring such a bill before the House before asking for the verdict of the electorate. (Applause).

Addressing the young men of the district Chairman Helmcken declared that as farmers they could not endorse reciprocity. He referred to Sir John A. Macdonald's success in sweeping the country on a protectionist policy in 1878. As that had been so beneficial to the country why was it proposed to depart from it? (Hear, hear). He added that it was quite plain that the tendency of the proposal was towards annexation. None wanted another flag and would not forego allegiance to the British empire in favor of a strange nation. The people were the final arbiters on the question and he felt sure that the answer would be in the negative. (Applause).

Nelson and Austin

HOQUIAM, Wash., July 14.—Battling Nelson and Lonnie Austin, of the Seattle Athletic club, have been matched for a ten-round bout at Aberdeen, July 19, according to an announcement made here today.

Government road work in the Stewart district is advancing rapidly under Foreman C. L. Cullin. There is now an excellent road to beyond Bitter creek, to a defective boiler.

Owing to the constantly increasing demand being made upon our advertising columns, it is necessary that all copy for changes be in not later than 4 p. m. New advertisements, 4 p. m.—earlier if possible.

No change or insertion will be made after the above stated hours.

This regulation does not apply to condensed or classified advertisements, the closing hour for which is 9 p. m. sharp.

DR. YOUNG'S SPEECH

Among the addresses delivered at the annual meeting of the Victoria Board of Trade by representatives of the provincial government, none was ever fuller of matters of interest and importance or listened to with more marked attention than that of Dr. Young yesterday. It was a striking story throughout, a story that will well repay reading.

The outstanding fact in this speech is Dr. Young's statement as to the provincial revenue. He pointed out, what many readers will remember, namely that in preparing the estimates for the year, the government had anticipated a deficit, but the returns show that during the year ending March 31st, 1911, the revenue will be nearly $10,500,000. The figures are actually upwards of $10,498,000. This remarkable showing is the best evidence of the prosperity of the province that any one could ask.

Dr. Young touched upon many points of value, but perhaps that which calls especially for comment is what he said about the progress in agriculture. He was able to report a very gratifying increase in the value of farm products, but he was compelled to add that the gain has not kept pace with the expanding population. We are still importing food supplies to a vast amount although they can be readily raised at home.

In this connection Dr. Young directed attention to an exceedingly important consideration. The cost of clearing land on Vancouver Island is high, and added to the first cost of the land makes the capital invested in a farm of any magnitude a very large sum of money. The capital per acre is necessarily very much larger here than in most parts of Canada. When to this is added the high wages paid for labor, it follows that land must be very productive if it is going to yield any return upon its cost. Hence the necessity of adopting in this part of the province the system of intensive cultivation. As the Acting Premier pointed out, there is plenty of cleared land to supply all the local demands, if it were intensively cultivated. This is a subject upon which very much ought to be said. We are glad that the Department of Agriculture is giving it attention. It might advantageously be taken up by the Development League, and the Colonist can promise that on its part it will do anything in its power to bring it under the attention of those who cultivate the soil. We are of the opinion that it will to a very large degree solve the labor question as it affects agriculture.

Dr. Young's optimism in regard to Vancouver Island makes very pleasant reading, and his observations upon the outlook for the province generally were exceedingly encouraging. Speaking of the Island, he made one statement that will be new to most people, namely that lying to the west of Campbell river and Nimkish lake there is an area of at least 100,000 acres of excellent land fit for settlement. Mr. J. H. Grey told us something about this in his report upon Island railway routes more than a score of years ago, but most people had forgotten it. It is a fact of great moment to Victoria, as it will be a powerful factor in securing railway extension.

Dr. Young's appreciation of the strategic importance of the Island will be a stimulus to those who have in the past put forward efforts to impress this upon the minds of the people.

We commend the speech, which we give in full this morning, to the reading of every one who is interested in the welfare and progress of Victoria, Vancouver Island and the province generally.

GREATER VICTORIA

Numerous requests have come to the Colonist for the agitation of a demand for the inclusion within one municipality of the whole area, which we called Greater Victoria in the course of a series of articles published not long ago in this paper. The area so spoken of was that which lies between the sea and a line drawn from the head of Esquimalt Harbor to the head of Cadboro Bay. It would include not only Victoria but the municipality of Oak Bay, a part of the municipality of South Saanich and the whole of the unorganized area in the Esquimalt Peninsula. We have no intention at present of entering upon a campaign for a Greater Victoria, but it is not at all premature to begin to familiarize the people with an idea that sooner or later may become a live issue. It is, of course, not free from difficulties, but doubtless they could readily be solved, especially as the demand for local improvements in the areas adjacent to the city will soon assume very formidable proportions.

Among the reasons advanced by those who have asked us to speak of the matter we may mention the perfectly valid contention that the interests of the residents of the area in question are identical in every respect except as to municipal government. The resident of Oak Bay or Esquimalt is for every purpose, except municipal government, as much a Victorian as the resident of James Bay or Fernwood.

Another reason given is that it is desirable for Victoria to get credit for her true population. We have reason to believe that when the Census returns are made public a good many people are going to be disappointed. Perhaps one reason of this may be due to incomplete enumeration, but much of it will be owing to the fact that a very large number of persons, whom we call Victorians, do not live within the city limits. It does not make much difference to us here in a business way whether a family lives on one side of the city boundary or the other, but it does make a great deal of difference to the prestige of the city abroad.

Another reason advanced is that the financial standing of the city will be enhanced by taking in a wider area, and that outlying districts can secure needed local improvements more cheaply.

Another is that we can plan improvements along broader lines, and carry them out to better advantage in respect to the requirements of the future.

Another is that the amalgamation is bound to come some time, and it can be accomplished more readily now than later, when the demands of the outside areas have compelled the floatation of loans and other steps that have not as yet been felt to be necessary.

These are some of the reasons that have been presented for our consideration, and they will doubtless attract attention. We repeat that we do not wish to be thought are inaugurating a campaign. Others may do that and we may be face to face with a practical proposal at an early day. We only aim at preparing the public for something that in any event will not be long delayed. We shall be glad to print short letters on the subject, either for or against it. The letters must be short.

THE LATE THOMAS EARLE

The news of the death of Thomas Earle will be heard with sorrow by thousands of people in British Columbia. Of late years, owing to failing health, Mr. Earle was compelled to refrain from active participation in public matters, but many will recall the time when he was foremost in everything of that nature, and was one of the first persons taken into account in all matters relating to the welfare of the city and province. He was prominent as a railway contractor, a business man and in public life, for he represented Victoria in Parliament for many years, and in every line of activity in which he was engaged, he earned the esteem and confidence of all who knew him.

Mr. Earle was one of Victorias pioneers. He came here a young man in the days of the gold rush. He soon saw the possibilities of his new home, and although thousands of those who came at that time retraced their steps when the glamor of the excitement had worn off, Mr. Earle cast in his lot permanently with British Columbia and did his share in building up the infant province. Personally he was liked by every one, for his was a heart inspired only by kindness to others. He was a loyal Canadian and a great believer in the future of the country.

The Colonist extends its deep sympathy to Mrs. Earle and her bereaved children. In this it speaks for thousands of its readers.

Our evening contemporary assures us that reciprocity is smashing party lines in the United States. But is that any reason for its adoption by Canada? Our experience with our neighbors in trade matters does not conduce to the belief that when they want a thing it is likely to be in the interest of any one but themselves.

In a brief, but business-like interview, Mr. H. G. Burbidge, of the Hudson Bay Company, tells of their plans in regard to a great departmental store in Victoria. Mr. Burbidge is a thoroughly up-to-date commercial man, who has a keen eye to the course of trade and proposes to steer his company in the right direction. In repurchasing the site of the proposed store on Douglas street, the company made a shrewd move, for the city must grow within the half circle drawn towards the north with that point as a centre. We do not mean that the limit of expansion has been reached towards the south, but the sea sets its barrier in that direction, while towards the north the room for growth is practically unlimited. Other prospective improvements in that part of Victoria will have a very important effect upon the future development of Victoria.

REVENUE FOR FISCAL YEAR

(Continued from Page 2.)

saying that the subdivision of these vast acres cannot be accomplished in a day. It is the policy of the government to survey the most readily accessible lands, gradually extending the work as settlement progresses and means of transportation are available.

Capital Wanted

"The first requisite to the development of Vancouver Island and the province is capital, not the kind seeking snaps in city lots, not boom money, but stable, solid investments in manufactures, mining, fisheries and other industries. And to secure the success of these investments we need people, thousands of producers and consumers. We are getting the capital in generous amounts from Great Britain and the United States. France has begun to seek investments and the more cautious Germans are looking over the ground, which will bear the most critical investigation, for if ever any country can boast of "having the goods" it is British Columbia. The people are coming too. During the fiscal year 1909-10 over 70,000 immigrants came to the province and in 1910-11 there were 54,000 landed at Canadian and United States ports booked for British Columbia, these being exclusive of those arriving from eastern Canada and the United States.

Now, when we consider the many dazzling opportunities presented to capital by the sister provinces and the inducements held out to immigrants by the Dominion government, and the big railway companies, we have reason to congratulate ourselves on the amount of money and the number of new settlers we are securing, due mainly to our own unassisted efforts.

Publicity Campaign

"The government is doing everything possible to induce capital and population by keeping up a persistent publicity campaign and increasing the vote for immigration every year. During the past year the bureau of provincial information and the agent general's office distributed over half a million bulletins, reports, pamphlets and maps, so that, on a modest estimate, the advantages and opportunities of British Columbia were placed before one and a half to two million people. In addition to government publications special articles were published in many of the leading magazines and newspapers of the English-speaking world, and thousands of unsolicited articles and news items appeared in the press of Canada, Great Britain and the United States. According to a memorandum furnished by the bureau of information 291 items, including editorials, illustrated articles and news notes (exclusive of telegraphic dispatches) appeared in 133 of the leading journals of England, Ireland, Scotland and Wales during the months of February and March. These were, without exception, unsolicited and as many of the papers are of world-wide circulation, they must have been seen by several million readers. The months covered are by no means exceptional, the same amount of free advertising is going on from day to day, from the fact that our publicity department has secured British Columbia a foremost position in the journalistic field.

"The work has been materially assisted by the boards of trade and publicity associations, by the C. P. R. and other transportation companies having interests in the province, and an immense deal of good has been accomplished by the fruit exhibitions in the Old Country and the eastern provinces, as well as by lectures illustrated by moving pictures and lantern slides. The Vancouver Island Development League deserves special credit for the effectual work it is doing for the Island.

"It is a matter for sincere congratulation that the conference between Sir Wilfrid Laurier and Hon. Richard McBride cleared the ground for the subsequent negotiations with the Songhee Indians which ended so satisfactorily in the transfer of their reserve to the province. I can assure you that in the partition of the reserve the interests of all concerned will be impartially considered.

"In conclusion, let me say that the building we are doing in this province is not of the boom kind, it is permanent and for the future. Mr. McBride, our premier, is unremitting in his efforts for the furtherance of the province's good interests. Let me thank you just here on behalf of Mr. McBride, Mr. President and gentlemen, for the very kindly compliment you paid his efforts in the settlement of the Songhees reserve and other matters. At the same time I cannot but say that I feel the compliment is fully deserved.

"Our province is forging ahead in a most remarkable manner. There is no boom, but a steady solid upward movement. It is our ambition to assist this movement and to continue this wonderful province of ours on the road we are now traveling."

A vote of thanks to the lieutenant-governor and to the Hon. Dr. Young was moved by Mr. F. A. Pauline and seconded by Mr. Simon Leiser.

On motion of Mr. H. S. Crotty, seconded by Mr. A. E. Allen the annual report which had been taken as read, was received and adopted. The report was as follows:

Thee annual report which was adopted follows:

Gentlemen—It is gratifying to report that during the twelve months ending 30th June, 1911, there has been in Victoria a substantial expansion in all lines of business. This has resulted from what may be termed natural causes, and while affording satisfaction with present conditions, justifies optimistic expectations for the future.

Esquimalt and Nanaimo Railway

Since the board's last year's annual report, the Alberni extension of the Esquimalt & Nanaimo Railway has been completed and in operation with regular train services to Cameron lake, thus bringing the West Coast within 18 miles of actual rail connection, as against 54 at the beginning of 1910. The grading and bridging is now completed to Port Alberni, and the track-

Livingstone, assisted by the grand marshal, Alice M. Taylor. The following were installed: Noble grand, Sister Ora Keshaw; vice-grand, Sister Mabel E. Nep; rec. and financial secy., Sister Frances A. Walker; treasurer, Sister Mary A. Phillips; conductor, Sister Belle Ritchie; warden, Sister Isabel T. Donaldson; chaplain, Sister Hattie Towne; inside guard, Sister Beulah Bowers; outside guard, Bro. W. H. Huxtable; R. S. N. G., Sister Minnie Dempster; L. S. N. G., Sister Sadie Brown; R. S. V. G., Sister Sarah J. Grant; L. S. V. G., Sister Winnifred S. Lee; pianist, Sister Mabel Boox; soloist, Sister Alice M. Taylor; P. N. G., Sister Agnes A. Lorimer.

FISH TRAP PIRACIES

Deputation Brings Recent Depredations to Attention of Hon. W. R. Ross

An influential deputation, in which cannerymen and other owners of launches and other small craft were well represented, yesterday interviewed Hon. W. R. Ross as acting Attorney-General, to bring to his attention the recent depredations committed by American fish pirates at the island traps, and also the increasing frequency of boat thefts—apparently by the same dishonest gentry from across the line. It was suggested that a fast police launch should be commissioned to give special attention to these offenders during the summer months.

The representations and recommendation of the deputation will obtain immediate consideration.

"Dad" Taylor, alias Channel, who is held at Vancouver for the murder of Eli McCutcheon, proves on investigation to be 82 years of age, instead of 93 as he had claimed.

NEWS OF THE CITY

Thanks for Medical Aid—The Port Renfrew branch of the Vancouver Island Development league has written to the offices in this city thanking them for their aid in obtaining Dr. E. C. Whitehouse for their district.

Publicity in Dawson—The Vancouver Island Development league is in receipt of a letter from Dawson, Yukon, acknowledging having received a number of slides of Victoria, which were shown at the Arctic Brotherhood theatre in Dawson.

New Incinerator—Work has commenced on the erection of the new garbage incinerator, which will be installed on the city wharf at the foot of Herald street. The plant will have a capacity of about 120 loads of garbage daily, and with the present incinerator of a capacity of about forty loads, will be capable of handling all the combustible garbage for the next four or five years.

Engines Satisfactory—The official tests of the two new Waterous fire engines, which recently arrived in the city for the local fire department, have been completed, and the fire chief will recommend their acceptance. Both engines exceeded the prescribed capacity of 500 imperial gallons per minute, while the steam trials were perfectly satisfactory.

Society of Friends—The opening session of the first Western Canadian conference of the Society of Friends opens at Burleith, Victoria West, this morning at 10 o'clock, and will be continued this afternoon at the Friends' hall, Courtney street this afternoon at 2 o'clock. The reception of reports will occupy the morning, and an address by Mr. Arthur Hinder, the afternoon session. Miss Phoebe Jane Wright will be the principal speaker this evening.

Agree to Arbitrate—The difficulties arising between the Granby and other smelter companies and the West Kootenay Power Co., in consequence of the serving of notice by the latter of an increase in power rates of forty per cent and upwards—which matter came recently before the executive in the form of a petition in protest from the smelters—have been in a measure adjusted by both parties agreeing to arbitrate the questions involved.

Wants Superior School—The question of the establishment of what is termed a superior school in Eburne has been brought before the local educational authorities there by the receipt by them of a communication from the superintendent of education, Dr. Alexander Robinson, in response to one addressed to him by the trustees. The superintendent in this letter states that at least ten names of prospective attendants would have to be submitted before the proposals for the school's establishment could be officially entertained.

Seek Co-operation — In an effort to arouse interest here in the project for securing a direct line of railway from the Peace river district to Vancouver, Dr. Elliott S. Rowe, who is secretary of the campaign inaugurated in the Temrinal City in this regard, is visiting Victoria to arrange meetings with the leading business men here at the end of next week. A committee of the Peace River Pacific League will then come to the Capital from Vancouver to "boost" the project, the deputation including Messrs. C. H. Macaulay, Robert Kelly, W. H. Malkin, A. G. McCandless, F. L. Carter-Cotton, M.P.P., and Dr. Rowe.

Studied Prohibition Law—Mr. J. B. Morton of Auckland, a well known public man of the New Dominion, who will again seek parliamentary honors at the forthcoming elections there, sailed for home last evening, as a passenger on the Makura. Mr. Morton since coming to America has been carefully investigating for himself the conditions prevailing in those portions of the United States which have adopted legislative prohibitions of the sale of or trafficking in intoxicants, notably the state of Maine—this in view of the circumstance that prohibition will be the major issue in the approaching New Zealand elections, when prohibition champions there look for a three-fifths majority. This is necessary in order that prohibition nationally may carry.

To Lecture on Island—Miss Agnes Deans Cameron, formerly of this city and now in the Old Country, has been sent a letter by the Vancouver Island Development league, requesting her to deliver a number of lectures on "Vancouver Island" in the near future. It is the idea of the local development league to have a number of these lectures delivered across the waters so that the people of the Old Land will get a better idea and obtain more knowledge of the Island and the opportunities which are constantly cropping up in all its parts. It is expected that lectures will be delivered by Miss Cameron in London twice, and once each in Birmingham, Manchester, Liverpool, Sheffield.

Field Meeting—The Natural History society will have a field meeting this afternoon. Those taking part leaving Government street at 2 p. m. for Admiral's road. Accompanied by Mr. Clapp, the Dominion geologist, the remarkable pot holes in the rocks will be examined and other evidences of the energy of the glaciers which covered this coast in by-gone days inspected. Passing through the new Indian reserve the party will proceed through the woods to the Japanese garden in the Tramway park. This stroll will give the nature-lover plenty of opportunity to read the natural history of the past portrayed in the tapestry of the forests and many fine growths of Douglas and balsam fir, both kinds of maple, pine, arbutus, yew, juniper, as well as peculiarities and oddities which abound in this locality will be studied and discussed.

Miss Fleming, Spirella corsetiere, intends leaving on a holiday for the east July 26 and would be pleased to see her customers before leaving. She will return on Sept. 1. Phone L. 2983 or 707 ½ Yates Street, Room 8.

A well known Des Moines woman, after suffering miserably for two days from bowel complaint, was cured by one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by all dealers.

THE WEATHER

Meteorological office, Victoria, B. C., at 8 p. m., July 14, 1911.

SYNOPSIS.

The western high barometer areas continues to be separated into two parts, one being central off the Queen Charlotte Islands and the other overlying the middle west states and the upper valley of the Missouri. Temperatures have been high on the Pacific slope, reaching 106 at Red Bluff, 100 at Walla Walla, 98 at Roseburg and 96 at Kamloops while at Victoria 88, and Vancouver 82, are the highest recorded this season. In the Prairie provinces the weather is warm, a thunderstorm with heavy rain occurred at Edmonton and light showers fell in Manitoba but in other parts the weather has been fine.

NEWS OF THE CITY

Boy Scouts Band Concert—The band of 5th Troop Victoria West Boy Scouts will give a concert at the North Ward park today at 2.30 p. m.

Ball is Postponed—The ball which it was proposed to hold at the Alexandra club on the 20th inst., as a fitting wind up to the local Coronation celebrations has been postponed until the autumn on account of the unusually warm weather prevalent at present.

Band Concert Today—The Fifth Regiment band will give a public concert at the Oak Bay hotel grounds this afternoon commencing at 2.30 o'clock. A first class programme has been selected by Bandmaster Rogers. This is the second of a series of concerts to be given there this summer.

The Police Court—It took but only a few minutes to dispose of the cases before the magistrate in yesterday morning's session of the police court. Three first time inebriates were the only lawbreakers and they were fined the usual $4 or 5 days.

Evening with Shakespeare—On Monday last the Victoria West Methodist Church Epworth League, under the direction of Miss Brown, social department, held an interesting evening. Miss B. Beattie gave a paper on the "Life of Shakespeare" and Miss Brown gave a most instructive talk on Shakespeare's works. Several pieces from Shakespeare were read and recited.

"Old Boys" Association—A meeting of the executive council of the British Old Public School Boys' association will be held at the offices of Messrs. Pooley, Luxton & Pooley, in Langley street, at 3 p. m. next Friday. All members of the executive are requested to attend this meeting, when the question of organizing an "Old Boys" camping party next month, and the autumn activities of the association will be discussed.

Interest in Victoria—As an example of how well Vancouver island, and particularly Victoria, is being advertised, a letter has been received at the offices of the Vancouver Island Development League from Mr. M. C. Harper, of Oklahoma, general manager of the Oklahoma, Kansas and Missouri rilroad, asking a number of questions regarding the placing of an interurban railway in this city. Mr. Harper is partly from Missouri, and he wants to be shown. He asks if there is any prospect for the construction of more interurban lines on Vancouver island, or are there as many roads on the island at the present time as can prosper. He states further that he has just finished work in the promotion of a line, having secured contracts for sufficient bonds to extend the line 35 miles, and would like to become associated with some first class proposition in the extreme west.

Forthcoming Flower Show—At a meeting of the Victoria Horticultural society, the prize list of the August flower show was thoroughly revised. Among several important reforms some sections of exhibits that have been very largely in the hands of one or two growers were either dropped altogether or extended so as to allow for more competition. In other sections, where the entries have been very large the value of the prizes was raised and additional prizes added. The decorated dinner table competition will this year be awarded five prizes, and a special section has been added for decorative designs on a table 30 inches square. This is likely to prove a very popular and attractive feature. The decorative section for bouquets, bowls, vases and baskets was considerably extended and additional prizes are to be given while several unnecessary restrictions were removed. The donation of a handsome challenge vase by Mr. J. S. H. Matson for competition among the schools of British Columbia will be a novel and popular feature. This is placed as a prize for plants and cut flowers, ferns and grasses on not more than 50 square feet of garden. The whole flower show's competitions are open to amateurs only, with the exception of one section for trade exhibits for which no prize is given. A record number of exhibits is likely to make this year's show the most attractive of all years' exhibitions in the history of the Horticultural society. All entries should be sent to the secretary, Mr. Fred Bennett, at 1587 Fairfield road, Ross Bay.

NEW APARTMENT BLOCK

Messrs. Dinsdale & Malcolm To Erect $20,000 Structure on Field Street

Still another apartment house will be erected in the city. Yesterday Messrs. Dinsdale and Malcolm, contractors, took out a permit for the structure, which will be located on Field st., and will cost $20,000. It will be of brick construction, three storeys in height, and up-to-date in every particular. Mr. H. S. Griffiths prepared the plans.

A permit was also issued to the Oddfellows for alterations and repairs to the building at the northeast corner of Douglas and Yates streets, to cost $3,000. Two stores on the Yates street front, an office on the corner and alterations to the Douglas street front will be made.

Permits were also issued to the Inland Investment Company for a dwelling on Stannard avenue, to cost $2,500; to Charles Woodford, dwelling on Howe street, $2,000; to George Watkis, additions to dwelling on Finlayson street, $500; to A. E. Newberry, additions to dwelling on Maple street, $450.

B. P. C. A.—Cases of cruelty, phone Inspector Russell, No. 1921.

A business property special, see Stewart & Doyen's adv. Page 17.

The Employers' Liability Assurance Corporation, Limited, of London, England, which for many years has successfully written general accident, sickness, employers' liability and fidelity guarantee insurance in Canada, has extended its operations to Fire Insurance and has recently established agencies throughout the Dominion. Messrs. Green & Burdick Bros., who have represented this company for its various branches, have now been appointed General Agents of the Fire Branch for Vancouver island. As the Employers' Liability Assurance Corporation, Limited, has led all other companies in volume of business in Canada, it is expected that the Fire Branch will be equally successful.

POTATO DISPLAY

Carload of British Columbia Tubers to Be Shown at New York

Arrangements are being made by the department of agriculture for a thoroughly comprehensive and representative collection of potatoes from the various farming districts of this province, to be sent for exhibition at the American Land and Irrigation Exposition at Madison Square Gardens, New York, from the 3rd to the 12th November next, where the collection will also be entered in competition for the Stilwell trophy and $1,000 prize.

It is expected that this potato display, if it can be arranged for, will comprise a full carload of superlatively excellent tubers, the exhibit being taken to New York under the personal charge of an official of the department here, most probably Exhibition Commissioner Branrith.

In addition to this prospective provincial representation in the competition for the Stilwell trophy and prize money, British Columbia will also be given desirable publicity by a number of individual entries, chiefly from the Delta and Ashcroft districts.

PRESENTATION TO DAUGHTERS OF EMPIRE

Citizens' Graceful Recognition of Efforts which Made Local Coronation Celebration Such a Success

There was a very pleasing ceremony performed at the Ladies' Alexandra club yesterday, when the Daughters of the Empire, hurriedly summoned, received an unexpected tribute of the city's appreciation of their loyal and self-sacrificing work in commemorating so worthily the coronation of King George on June 22nd. This took the form of a presentation from the citizens of a very handsome silver shield, which, at the request of the Daughters of the Empire is to be exhibited in Messrs. Challoner & Mitchell's window in Government street for the next few days.

The presentation shield is of solid silver mounted on a mahogany trophy and bearing the following felicitous inscription, which is surmounted by a Union Jack in tricolor enamel: "June 22nd, 1911. God Save the King. Presented to the Daughters of the Empire by the Citizens of Victoria, B. C., in Recognition of Their Splendid Work in Organizing and Carrying Out the Celebration of the Coronation of King George V."

Surrounding the inscription is an artistically designed and finely executed border of the rose, shamrock and thistle emblems of the United Kingdom of Great Britain and Ireland. This shield was the work of Messrs. Challoner & Mitchell, and was subscribed by a number of prominent citzens. The happy idea originated with Alderman H. F. Bishop who, with Mr. William Blakemore, attended yesterday afternoon as a deputation from the subscribers to present this admirably chosen trophy to the Daughters of the Empire at the Alexandra club.

Mr. W. Blakemore, as chairman of the committee of citizens which took the matter in hand, made the presentation on behalf of the citizens of Victoria in felicitous terms, expressive of the city's high appreciation of the loyalty and public spirit which had inspired the Daughters of the Empire to organize a series of coronation celebrations worthy of the imperial occasion, and of a nature that would long remain a source of pride to Victoria and a credit to the province. In paying tribute to the unsparing work which had accomplished so successfully this labor of love and loyalty, he emphasized the citizens' recognition that such success could never have been attained without so inspiring a lead and the wholehearted co-operation of all local bodies. They as citizens, felt that however inadequate such a presentation might be it was at least worthy to indicate the spirit, which had made Alderman Bishop's and his appeal meet with such an immediate and handsome response from all who had been approached.

Alderman H. F. Bishop, in associating himself with Mr. Blakemore's remarks, said that it was merely a small but sincere tribute to their loyalty and love of the city.

At a special request of the regent of the order, Mrs. Henry Croft, who was prevented from being present, Mrs. Henry Hanington received the presentation shield on behalf of the Daughters of the Empire, making a charming acknowledgment of the gift of the citizens. They felt the presentation to be as high an honor as it had been wholly unexpected, and she regretted that the brevity of the notification of such a very handsome presentation had made it impossible to secure a full attendance of members. She could, however, say in the regretted absence of their regent, that the Daughters of the Empire were most sensible of such recognition of their efforts to commemorate June 22nd in a manner worthy the occasion and the city, and would treasure it always with pride and the greatest of pleasure. It would, she hoped, adorn the walls of the clubroom, and form a beautiful and permanent memorial of a day none of them would ever forget. She would present it officially to the next meeting of the Daughters of the Empire, when they would all be present to receive it in a way more fitting to such a gift, and would be able more adequately to convey their thanks to the citizens who had subscribed to such a very beautiful tribute.

The deputation then withdrew, after expressing their regret at the indisposition of the regent, Mrs. Croft, and thanking Mrs. Hanington and the other members for the manner in which the presentation had been received.

Nanaimo's police believe that in a number of n'er-do-wells arrested in this city, there have been apprehended the parties who have been responsible for the Coal City's recent series of petty burglaries.

TASMANIA'S PREMIER PASSES THROUGH CITY

Sir Elliott Lewis, Returning Home From the Coronation, Is Amazed at Progress Canada Is Making.

Sir Elliott Lewis, premier of Tasmania, and Lady Lewis, arrived in Victoria by the steamer Princess Charlotte yesterday afternoon from Vancouver, and sailed by the R. M. S. Makura last night homeward bound from London after attending the coronation. The Tasmanian premier and Lady Lewis were met by Hon. A. E. McPhillips, who took them for a tour of the city by motor, making an extensive run covering between twenty and twenty-five miles of the outskirts of Victoria.

Sir Elliott Lewis was greatly impressed with the beauties of this city, and enthused in this regard when seen by a Colonist reporter on board the Makura. He said he had marvelled as he came across Canada and seen the growing cities. He had read of their brief history, and was amazed at the growth in the time, the great width of the streets, the lighting, tramways and other things, seemed wonderful. Victoria's beauty was particularly impressing. Nowhere had he seen such a splendid architectural pile as the parliament buildings of Victoria in contrast with the governmental buildings of any province.

He said: "If we of Australia only had your wonderful natural advantages in the proximity to the commercial and social centres of the world, we would not have to fear for the economic future of our country."

Sir Elliott, who attended the coronation accompanied by Lady Lewis as an honored guest of the government, returns from this most stirring patriotic event filled with pride in the fact that his country, too, is a part of the great British Empire. "The ceremonies were most impressive," said Sir Elliott, "and there was no better opportunity than this to demonstrate to the world that the British Empire is not alone a solid political union of prosperous commonwealths, but a union in which loyalty to the crown is perhaps the greatest basic factor in its perpetuity.

"Under the wise guidance of the mother country, we of the Federation of Australia have experienced a most unprecedented prosperity for the past decade, and we are looking forward to greater commercial expansion since the Federal government of our Commonwealth is taking active steps to attract settlers, not alone from the British Isles, but from the Latin European regions as well. Queensland is experiencing a most gratifying influx of American immigration, and renewed mining activities in New South Wales are bound to offer a great attraction to foreigners looking for a promising field to settle.

"Since a most elaborate irrigation system has been installed in Victoria, a new interest has been aroused in the agricultural possibilities of that state."

DECISION DELAYED

Discussion Over Location of Corporation Yard Causes Warm Expressions

No settlement has as yet been arrived at by the city council relative to the selection of the Potter property and adjoining lots for a corporation pipe yard. The matter once again came before the council last night when Mr. J. W. Bolden, on behalf of a number of property owners in Spring Ridge, protested against the location of the yard in that section, claiming that the owners had taken it for granted that when the bylaw to authorize the sale of a number of city lots, the proceeds of such sale to go towards the purchase of the new site, had failed, the matter would be dropped. Mr. Bolden expressed the opinion that the council thought it could secure a cheap site in that neighborhood because the people there are cheap, an expression which was emphatically contradicted by Alderman Moresby.

Mr. Roy, another member of the deputation, declared that the mayor could see no other spot for a corporation yard as it was the license of the Lion Saloon he was after and nothing else.

Towards the close of the meeting the matter was brought up again for final settlement. Mayor Morley and Alderman W. F. Fullerton had a tiff when the latter declared the former was merely advocating the scheme to get rid of the Lion Saloon and thereby secure votes, while the mayor accused Alderman Fullerton of like vote-catching methods.

Alderman Fullerton declared that even Rev. Mr. Stevenson had not been misled by the mayor's stand, having declared that it would be wrong to secure the site for a corporation yard merely to get rid of the license. Alderman Fullerton averred that as all the aldermen were not present it would be unfair to take a vote at that juncture. Any way he would not remain.

Suiting his action to the word, Alderman Fullerton left the council chamber, while Mayor Morley started in to explain that neither Rev. Mr. Stevenson nor Alderman Fullerton had told the truth when they accused him of endeavoring to locate the yard on the site proposed solely to get rid of the liquor license. There was not a word in the bylaw about buying the license.

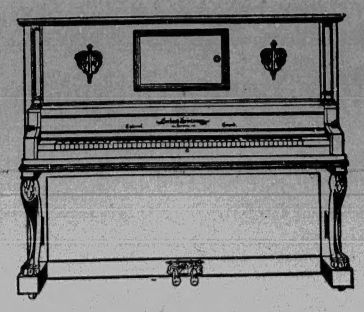

In view of the fact that but six of the aldermen were present when the subject was brought up at the end of the meeting, the matter was laid over for a week.

OBITUARY NOTICES

Jones—The funeral of the late little Doris Jones took place from the Victoria undertaking parlors yesterday afternoon at 2.30 o'clock, where the Rev. E. G. Miller conducted an impressive service. Deceased was six years of age, and had been an inmate of the Orphan's home. Interment was made in the Ross Bay cemetery.

An ordinary case of diarrhoea can, as a rule, be cured by a single dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. This remedy has no superior for bowel complaints. For sale by all dealers.

Gerhard Heintzman Pianos

We have just received a shipment of the celebrated Gerhard Heintzman Pianos—eighteen instruments in all—that are well worthy your inspection. This make of pianos is so well known that a detailed description would be superfluous. We will state, however, that everything that is desirable in piano construction as to tone, quality and style of finish will be found.

Drop in and we will be only too glad to demonstrate to you this superior quality.

SCHOOL WILL RE-OPEN ON SEPT. 13. R. MILLICHAMP, Hon. Sec.-Treas.

REVENUE FOR FISCAL YEAR

(Continued from Page 4.)

laying has reached the Summit so that by the beginning of November through train service should be established between Victoria and the West Coast of Vancouver Island.

The clearing of the right-of-way of the extension towards Comox has been practically completed beyond Union Bay, and the line has been located to Campbell river and Duncan bay.

Clearing of the right-of-way between Duncans and Cowichan lake, 18 miles, is now finished and it is expected that this work will be completed in time to permit grading to commence as soon as the large milling company commences construction of the proposed saw-mill in the vicinity of Crofton, for which milling company the Cowichan branch of the Esquimalt & Nanaimo Railway is being constructed to furnish timber. This branch will also open up a large area of good agricultural country, which will be closely tributary to Victoria.

Canadian Northern Railway

Actual construction of the Vancouver Island section of the Canadian Northern Railway company's system commenced in February last, the function of turning the first sod taking place on the 18th day of that month. This was somewhat later than had been expected but when it is considered how little was known of the southwestern portion of Vancouver Island and the present-day requirements in railway construction in respect to grades and curvatures the company is entitled to credit for having accomplished a great deal of exploitation and survey work in a short time. Work is now rapidly proceeding on about 35 miles of the road between Colwood and Sooke lake, the road passing through Metchosin district to Sooke harbor, thence following Sooke river to Sooke lake and along the east side. The road then follows along the west side of Shawnigan lake and directly to Cowichan river, at Holt creek, thence following the Cowichan river and north side of Cowichan lake to its west end; in all 95 miles. Between Cowichan lake and the first objective point, Barkley sound, the road is not yet definitely located and the words "first objective point" are used advisedly in consequence of the Hon. Richard McBride having publicly announced his intention of arranging for continuing this road to the north end of Vancouver Island. The location of the road between Colwood and Victoria, and the rail and ferry plans for connecting the Vancouver Island section with the company's transcontinental system, are not yet announced but it is known that they are receiving most serious consideration and are progressing to a satisfactory conclusion.

Before concluding these remarks it is desired to place on record the board's appreciation of the Hon. Richard McBride's courtesy in giving its special committee an opportunity of examining the railway comany's original Vancouver Island route proposals, and in subsequently arranging for important changes in accordance with the board's wishes.

Victoria & Sidney Railway

In September last this board called the attention of the owners of the Victoria & Sidney Railway to the unsatisfactory condition of the road, and service. This road possesses many possibilities which have been grossly neglected. The improvements, recently made, art totally inadequate and constant complaints are made by the traveling public.

The new station, on Blanchard street, was opened for business in December last. The service consists of three trains daily, two passengers and one freight.

Seymour Narrows

The visit of Sir Wilfrid Laurier, in August last, was taken advantage of to bring to his notice more prominently than was possible before the necessity for giving Vancouver Island all-rail connection with the mainland by way of Seymour Narrows. The board's representations were made in the form of an address, a copy of which will be found appended hereto. Subsequently, Sir Wilfrid, when en route to Prince Rupert, had an opportunity of seeing the site of the proposed connection and was doubtless impressed with the fact that to ensure the construction of a railroad by that route the subsidy provided for by the parliament of Canada would have to be largely increased. The rapid development which will inevitably follow the Vancouver Island railway construction now in progress, and that contemplated in the near future appears to warrant the expectation that rail connection with the mainland cannot much longer be delayed.

Indian Reserve

There is every prospect that the railway terminal situation in Victoria will be satisfactorily arranged immediately after the Hon. Richard McBride returns from the coronation; years of delay having been caused by the Songhees Indians occupying land which was required for this purpose. The board always felt that arrangements for the transfer of the Indians to another reserve presented no insuperable difficulty and the correctness of this opinion was proved by the fact that a few hours' consultation sufficed for the premiers of Canada and British Columbia to arrive at the basis of a settlement which ultimately solved this long-standing grievance of the citizens of Victoria. The deputation from this board which waited upon Sir Wilfrid Laurier when he visited Victoria placed the Indian reserve question in the forefront of their address. Sir Wilfrid then visited the reserve, accompanied by the Hon. William Templeman, minister of inland revenue, and agreed that the existing conditions could no longer be tolerated, and before leaving the city he and the Hon. Mr. McBride had arranged the details for giving effect to the wishes of the board.

It must not be thought from this brief reference that the work accomplished in arranging with the Indians to transfer their property has been by any means easy. The result and promptness of execution have undoubtedly been due to the opportunity afforded by Sir Wilfrid's visit to bring the two premiers into consultation. Mention must also be made of the services rendered by two members of the board, Messrs. H. Dallas Helmcken, K. C., and J. S. H. Matson; the former acting for the Indians and the latter on behalf of the provincial government, and great credit is due to them for the part they took in the proceedings.

Tramway Affairs

It is gratifying to report that the B. C. Electric railway company are now actively engaged in the extension of their system to the extreme end of the Saanich peninsula, a distance of about twenty miles. The peninsula contains valuable fruit and farm lands and is already serevd by a railroad and two good wagon roads. There is no doubt, however, that the completion of the electric road will be of great benefit and be the means of rapidly increasing population and stimulating lines of industry along its route. This electric road has been under consideration for some years and in consequence of the increasing urgency of the transportation problem due to the natural growth of the population and agricultural development the council of this board held a special meeting in January last and subsequently communicated to the local management a request that the situation be dealt with promptly and it is gratifying to be able to report that the company took immediate action.

From time to time this board has brought to the notice of the company the necessity for improving its city services but with the knowledge that there was an insufficiency of power to properly operate the system at all times the requests were framed accordingly. The completion of the B. C. Electric Railway company's power plant at Jordan river entirely changes these conditions and leaves no excuse for further delay, therfore, it is not too much to ask for the double tracking of all existing lines, the discarding of obsolete cars, and the opening up of new car routes to meet the requirements of many sections of the city and suburbs not served at present. This company holds a valuable franchise and there is no reason why they should not develop it with the same spirit of enterprise which the citizens of Victoria themselves have shown in arranging for municipal works on a larger scale than is found elsewhere in a city of this size.

Victoria Harbor

The work of improving Victoria harbor has progressed steadily. The dredge Ajax, employed in deepening the channel of the inner harbor, between the outer harbor and the Canadian Pacific and Grand Trunk Pacific Railway companies' wharves, to twenty feet of water at low tides, will complete that work in a few weeks. The dredge Mudlark, which has done good work in the upper harbor, is temporarily laid up for the installation of a new boiler.

One of the Lobnitz rock crushers will be ready for work about the end of this month. The order for the second has been deferred until it is proved that the crusher received is suitable for the work to be performed.

Harbor improvements should now proceed more rapidly than hitherto and in order to keep pace with the requirements of the port it will be necessary to see that the dredging and rock crushing plants are worked continuously. The Dominion government has been asked to re-vote the extra but unexpended allowance made last session for working the rock crushers night and day.

All the wharves are owned by private corporations or individuals. The work of widening and lengthening the Canadian Pacific Railway company's wharves has commenced and soon the congestion there will be relieved. Plans are prepared for increasing wharf accommodation at the outer harbor for large ocean vesels and as the business of the port grows the breakwater between Holland point and Brotchie ledge can be constructed and would provide for the future requirements of the port, so far as the present need be considered. The proposed breakwater presents no serious engineering difficulties and Mr. Keefer, in his report to the Dominion government, estimated the cost at $1,280,000, which is a comparatively small sum when the vast expenditures for similar purposes on the Atlantic seaboard are considered.

With the expected opening of the Panama canal in 1915 there will be great changes on the Pacific seaboard and in order to secure for Victoria a full measure of the general prosperity, which appears to be assured, it will be necessary to look ahead in making plans. The requirements of the future call for much larger expenditures than hitherto, and the prospective immediate returns may not appear to be sufficient to warrant investments to the full extent required, therefore, the present appears an opportune time to consider some scheme of harbor development and control by a corporate body, assisted from the public funds.

Pilotage

The port of Victoria possesses a natural advantage in geographical situation free from fog. Most of the commanders of vesels doing business at Victoria have no hesitation in entering and leaving the port without the as-

BENGALS GET SEVERE TREATMENT YESTERDAY

VANCOUVER, July 14.—Vancouver defeated Tacoma today by a score of 12 to 1. Annis was hit hard, a total of 16 hits being collected off his delivery. Brinker secured a home run while Cates got two three-baggers. After the fifth Mike Lynch and several other members of the Tigers tried to convert the game into a farce and witnessed the remainder of the game from the stand. Score:

Notes.

Catcher Tom Hasty, who went to Vernon from Spokane, got into the game yesterday and on an overthrow lost the match. The opposing catcher also let in Vernon's one run, on an overthrow, but Hasty went him one better by letting in two runners.

It looks as though Householder has been traded for Cocash, as was the original agreement some weeks ago. If Cocash keeps up his hitting, the exchange will be the best the local management has pulled off this year, but at that Householder is one of the most consistent hitters in the league. Cocash is showing better in fielding.

"Bill" Goodman certainly had a good eye yesterday. Four hits out of five times to the plate and a home run at that is going some.

Householder's rest showed that he had not forgotten how to hit and for Seattle he was there yesterday.

The team's line-up was altered owing to Kellar's absence, yesterday.

BASEBALL RESULTS

American League.

DETROIT, July 14.—George Mullin, who has been out of the game for several weeks, owing to an operation on his nose, returned today and pitched fine ball, Detroit winning 6 to 1 and making it four straight from Philadelphia. Half of Detroit's runs were due to a bad throw by Strunk in the third inning.

Score:	R.	H.	E.
Philadelphia	1	5	1
Detroit	6	9	1

Coombs and Lapp; Mullin and Stanage.

ST. LOUIS, July 14.—Two runs behind in the ninth, St. Louis rallied and scored three runs on three hits, a base on balls, followed by Wallace's double. The locals fielding was fast and perfect.

Score:	R.	H.	E.
New York	3	8	2
St. Louis	4	11	0

Caldwell, Vaughn, Quinn and Blair; Lake, Hamilton and Stephens.

CLEVELAND, July 14.—Graney's muff of a fly in the ninth saved Washington from a shutout by Cy Young today.

Score:	R.	H.	E.
Cleveland	4	7	2
Washington	1	7	2

Young and Fisher; Walker and Henry.

CHICAGO, July 14.—White with two doubles gave Boston the final game of the series with Chicago. Pape was in fine form and kept the hits of the locals well scattered.

Score:	R.	H.	E.
Chicago	0	4	2
Boston	2	9	0

White and Sullivan, Payne; Pape and Williams.

National League.

PHILADELPHIA, July 14.—Philadelphia got undisputed possession of first place by defeating Cincinnati, 5 to 4 today. Fromme pitched good ball for four innings, but in the fifth the locals knocked him out of the box.

Score:	R.	H.	E.
Cincinnati	4	10	1
Philadelphia	5	8	2

Fromme, Smith and McLean; Alexander and Dooin.

BOSTON, July 14.—Manager Bresnahan used four pitchers in an effort to win today's game but the lead taken by Boston in the second inning proved too great, Boston winning.

Score:	R.	H.	E.
Boston	7	7	3
St. Louis	5	6	1

Tyler and Kling; Golden, Geyer, G. Laudermilk, L. Laudermilk and Bresnahan.

(All other National League games postponed on account of rain.

Coast League.

PORTLAND, July 14.—All three scores in today's game between Vernon and Portland resulted from bad throws. Kuhn overthrew second, scoring Brashear. Hasty also overthrew second, scoring Kuhn and Steen scored when Patterson who had retired Chadbourne, overthrew third base. The pitching of both Stewart and Steen was superb.

Score:	R.	H.	E.
Vernon	1	5	4
Portland	2	7	1

Stewart and Hasty; Steen and Kuhn.

SAN FRANCISCO, July 14—Although making a desperate rally in the last inning, Oakland failed to tie the score in the game with San Francisco here today, the latter winning 3 to 2. With the exception of San Francisco's better showing in the run column, the score was an exact parallel, each team scoring six hits and three errors. Oakland's runs were brought in in the first and the ninth innings, and San Francisco's in the fifth and sixth. Flater and Miller broke even, each striking out three men and each passing two.

Score:	R.	H.	E.
Oakland	2	6	3
San Francisco	3	6	3

Flater and Pierce; Miller and Schmidt.

LOS ANGELES, July 14.—Sacramento made it three straight from Los Angeles today, winning 5 to 3. The home team tied the score in the eighth, but could do nothing after Sacramento had added two runs to their score in the ninth. Yates was found for 12 hits, 4 of which were two baggers. Sacramento scored its first two runs on a double steal, Metzger returning the ball high over Abbott's head. Shinn scored and Danzig wen to third, reaching the plate on Mahoney's single.

Score:	R.	H.	E.
Los Angeles	3	11	2
Sacramento	5	12	2

Yates and Abbott; Fitzgerald and Thomas.

ARRANGEMENTS FOR J. B. A. A. TRACK MEET

The annual J. B. A. A. track meet will take place at the Oak Bay park on Saturday, August 12th, and in the meantime the members of the team will keep in training and participate in the big Scottish meet to be held at Vancouver on the 29th instant. The local meet, it is expected, will be one representative of British Columbia and no expense will be spared in making it the event of the season by the enterprising committee which has been selected.

Besides a complete athletic programme, barring the pole vault, two bicycle races have been added, and also two junior events for boys under 18 years.

"Hal" Beasley, captain of the local team will be accompanied to the Scotch sports in Vancouver by Ogden, a student of the Collegiate school. Beasley will run in the 100 yard, 220 yard and he has entered in the broad jump. Ogden will appear in the senior pole vault, 220-yard handicap and the quarter mile.

Beasley, who is known to every runner in the province, has been showing the best of form this year and should his successes continue he will enter in the Pacific Coast championships at Astoria, Ore., next month. Beasley's favorite event is the 100 yards.

JUNIOR BASEBALL RACE NOW NEARING CLOSE

In their last game of the season, the Knights and the East End baseball teams will battle at the Heywood avenue grounds this afternoon at 2.30 o'clock. The former team, which heads the league, tied with the Wards, is going to make a strong effort to win, as should it lose it will probably be out of the running. The Wards have but one more game to play with the Oak Bay team, and upon these contests depends the championship. The East Ends, however, while not figuring for the pennant, have run an excellent race, and a fast game is expected this afternoon.

The Knights line up as follows—Creech, rf; Casey, c.; Revercome, ss; Clarke, 1st; McDonald, 3rd; Clemo, lf; Mulcahy, 2nd; Smith, cf, and Totty, p. Utility, Vogler and Anderson.

The standing of the league is as follows:

	Won.	Lost.	Pct.
Knights	11	3	.786
North Ward	11	3	.786
Oak Bay	10	4	.714
East End	9	5	.667
Swastikas	3	12	.200
Olympics	0	15	.000

NO CLAXTON CUP LACROSSE GAME TODAY

There will be no Claxton cup lacrosse game between the Wards and the Wests today, but the members who aspire to represent Victoria at the New Westminster provincial league game next Saturday will be on deck to go through a strenuous drill.

The team will be finally selected next Thursday evening, when the "likelies" will meet a team to be selected by Mr. Sam Lorimer. The practice commences today at 3 o'clock.

The Claxton series now stand, Wards 2, and the Wests, 1. The next game will not be played for two weeks at the least.

NAVY CRICKETERS ARE VICTORIOUS

The Esquimalt and Garrison teams will play a friendly match this afternoon, starting at 2 o'clock, at Work Point. The former will be chosen from the following: D. Isbister, W. Isbister, L. Thomas, A. E. Thomas, G. Jacques, J. Ball, W. Wagland, M. Doyle, W. Parke, R. Frost and A. Engle.

The Victoria and Esquimalt teams are scheduled to meet next Wednesday afternoon at the Jubilee grounds.

H. M. C. S. Rainbow v. Major Beale's XI.

On the Jubilee hospital grounds yesterday an unusual batting contest took place. J. H. Gillespie scoring 90 runs containing 18 4's. Lieut. Morrell amassing 121 not out, and Sales 52 not out. Rainbow winning in a single innings game by seven wickets and 33 runs. The following is the score:

Major Beale's XI.

M. Cane, c and b Greatorex	17
C. C. Tunnard, b Greatorex	10
J. H. Gillespie, b Morrell	90

NO VICTORIANS IN TENNIS FINALS

PORTLAND, July 14.—Spokane and Portland still are in the running for the North Pacific International Tennis championship title being played for here. The matches today in both singles and doubles were among the best ever witnessed in international play. Garrett of Victoria had no easy time defeating Gorrill of Portland, the match running four sets, 6-1; 3-6; 6-2; 8-6. Foulkes, the champion of Canada, went down to defeat before the city champion of Portland, Wickersham, in three straight sets, Wickersham allowing his opponent only ten games in the total of thirty played. Rhodes of Vancouver fell before Breeze of Tacoma in three straight sets. The detailed scores follow:

Garrett, Victoria, beat Gorrill, Portland, 6-1; 3-6; 6-2; 8-6.

Wickersham, Portland, beat Foulkes, Victoria, 6-1; 6-3; 8-6.

Tyler, Spokane, beat Cardinall, Vancouver, 6-4; 6-2; 6-1.

Breeze, Tacoma, beat Rhodes, Vancouver, 6-1; 6-2; 6-2.

Ditchburn and Cusack Referees

Arrangements were completed last night, as a result of a final appeal from the British Columbia Lacrosse association, by which W. E. Ditchburn and T. R. Cusack, of this city, will referee today's New Westminster-Vancouver Minto cup match at the Royal City. The officials have been promised the unqualified support of the organization and intend effectively eliminating the rough work during their jurisdiction.

TODAY'S FIXTURES

Baseball—Giants vs. Hills, Royal Athletic park, 2 p. m.; Prides vs. Bays, Royal Athletic park, 4 p. m.

Yachting—Victoria Yacht club cruise.

Cricket—Albion C. C. 1st XI. vs. Nanaimo; Albion C. C. 2nd XI. vs. Strawberry Vale C. C., Beacon Hill park. Victoria C. C. vs. Union club, V. C. C. grounds; Garrison C. C. vs. Esquimalt C. C., Work Point.

Tyler, Spokane, beat Garrett, Victoria, 6-3; 6-3; 6-2.

Wickersham, Portland, beat Breeze, Tacoma, 6-0; 6-1; 7-5.

Tyler and Fulton, Spokane, beat Richardson and Shannon, Seattle, 6-1; 6-2; 1-6; 6-4.

Gorrill and Wickersham, Portland, beat Rhodes and Cardinall, Vancouver, 6-3; 6-0; 6-4.

COLONEL A. W. JONES MAKES GOLF RECORD

SEATTLE, July 14.—Tacoma ladies took a prominent part in the golf tournament today at the grounds of the Seattle Golf and Country Club. Mrs. Curran, of Tacoma, made the ladies' best mark, 93; Miss Baillie, Tacoma, 95; Mrs. Bailey, 98; Mrs. Potter, 99. They will play in competition tomorrow, as follows: Mrs. Curran and Mrs. Bailey; Miss Baillie and Mrs. Potter.

In the consolation flight the following Tacomans qualified: Mrs. Bean, 102; Mrs. Fahnestock, 107; Mrs. Dempsey, 110. In this class the best score was made by Miss R. A. Collins, of Seattle, with 101.

The feature of the day was the performance of Col. A. W. Jones, of Victoria, who went over the nine hole practice course, making a new Pacific coust record.

The Victoria players are making a good showing among the men, while the Tacoma ladies are nobly holding up the golf reputation of the City of Destiny. The semi-finals will be played tomorrow.

TWO SENIOR BALL GAMES THIS AFTERNOON

The Royal Athletic park will be the scene of two senior league games this afternoon, the first starting at 2 o'clock when the Beacon Hills and Giants come together, and the second at 4 oclock when the Prides and Bays will try conclusions.

In the former the teams will take the field as follows:

Beacon Hill—Scott, c; Surphlis, p; Fowler, 1b; W. Gravlin, 2b; McDougal, 3b; A. Brown, ss; E. Steele, lf; Cottet, cf; T. Gravlin, rf.

Giants—Whyte, c; Winsby, p; Baines, 1b; Nason, 2b; Williams, 3b; McKittrick, lf; McDiarmid, cf; McIlmoyle, rf.

INTERMEDIATE HILLS WIN ANOTHER GAME

The Beacon Hill intermediates climbed one notch higher in the race for the championship last evening when they defated the East Ends by the score of 7 to 3. The result of this game gives the Hills an undisputed lead in the league and it will take some hard playing to dislodge them. The East Ends were out in force, but Bob Steele, who was on the slab for the winners, was in good form, only allowing four hits and striking out ten of the opposing batters. The feature of the game was the batting of Marion, who got a three-bagger, a double and a single out of four times to bat. The Hills started off strong and ran up five runs in the first inning on three hits and two errors. One more was annexed in the second inning on a home run by Newitt, and another in the sixth when marion got his three-bagger and came home on a passed ball. The East End were unable to cross the plate until the fourth when on a couple of passed balls and a hit, two runs were sent over and another in the fifth, on two hits and an error. The batteries were Steele and Watson for the winners, and Dakers and Ward for the losers.

ROLL OF DEAD NOT SO LARGE

(Continued from Page 1.)

mation we have, we can say certainly there has been much exaggeration and people are being alarmed unnecessarily.

"Mr. Clements, chief engineer of the T. & N. O. railroad, says that only fifty-two persons have been accounted for as dead. We have it directly from the Dome people that their death list is nine. In several instances where bodies have been reported as lying on the ground, investigation by Mr. Clements has failed to find anybody who has seen any. Wild rumors are caught up and spread to an incredible extent.

"The fire area has been unnecessarily magnified. There is no fire at the prisoners' camp, and this is only about three miles from Porcupine."

The relief fund has reached $40,000, and five trains of supplies have reached Cochrane and Porcupine. Ten miles square represents the burned area, and the financial loss to the government will not exceed the average annual loss from forest fires.

Although the relief expeditions covered the greater portion of the burned Porcupine district today, they failed to report any further loss of life than was contained in yesterday's despatches which placed the number of lives lost at about 100.

With the arrival of additional relief workers the burned area is being covered thoroughly. Many of the missing are believed to have fled far into the interior and found refuge at isolated farm houses, and although safe, may not be heard from for weeks.

Richard A. Cartwright and his son, R. A. Cartwright, jr., who were reported among the missing, are safe at Haileybury. Latest advices say most of the fires are out. Three carloads of provisions reached Porcupine today and more are on the way. Shelter tents and materials for houses are also being sent. The work of rebuilding the mine structures has begun.

The largest area burned was that comprising the townships of Tisdale and Whitney, where were located the towns of Porcupine, South Porcupine and Pottsville, and the largest mines. No word has been received of damages at the power plant at Trunn's landing, and this strengthens the belief that the fire did not spread over as great an area as at first reported. The fire that destroyed Cochrane, 100 miles distant from Porcupine, it is believed now, was independent of those in the Porcupine district.

CANADA HAS MADE POOR BEGINNING

(Continued from Page 1.)

Admiral Henderson retired from active service in 1908, when he was Admiral Superintendent of the Devenport Dockyard, which post he held from 1902. He entered the royal navy in 1859, his first command being H. M. S. Nelson. He was commodore of the Jamaica station, and in 1900 was appointed a privy councillor. He took command at Devenport in 1902. His brother, Admiral Sir Reginald Henderson, whom he is going to join in Australia, entered the navy a year after he did, and served as second in command of the Invincible at the bombardment of Alexandria. He is now planning the naval programme for Australia.

Rules for Surveyors.

In addition to the general technical and professional rules laid down for the guidance of surveyors engaged under special instructions from the Minister of Lands, a circular recently issued by Surveyor-General Dawson notes that surveyors will hereafter be required to "leave every corner established in such condition that the danger of its destruction is minimised. Where bearing trees are used, the surveyor will, as a precaution against loss by fire, place, where practicable a few stones around the post. In sending in field-notes, he will state clearly what method has been adopted to preserve each corner.

"In carrying out surveys, the surveyor will tie in any application posts found of timber, purchase, lease, etc, on which markings are sufficiently legible to identify same, and return the tie and a copy of the markings with field-notes.

"Lakes of greater area than ten acres are to be traversed, and the area to be deducted from that of the lot—rivers over one chain in width to be traversed by one line, the position of the banks being located by offset, and such information given in the notes, as to the character of the river, as will enable the department to determine whether the area should be deducted. Such traverses, for the purpose only of determining the area of water in a lot, may be made with the stadia and compass; but this permission does not apply to traverses of water forming boundaries of lots. Shallow lakes and water-courses likely to dry up in dry seasons shall not be traversed, nor shall their area be deducted from that of the lot.

"The surveyor will, as called for in the "Land Act," classify each lot, and where same is subdivided, each quarter-lot. In addition, he will keep full notes as to the general characteristics of each parcel as to soil, timber, contour of ground, and its suitability for any economic use.

"He will also keep careful notes of the topographical features of the country, so as to furnish this department with a topographical sketch-map of the district surveyed and surrounding country."

Deputy Sheriff Accidentally Killed

SPOKANE, July 14.—Deputy Sheriff James M. Bennett was instantly killed at Chelan, Wash., this afternoon by the accidental discharge of his revolver. He was stooping over a spring to drink, when the weapon was discharged.

EL HAMUR
TURKISH CIGARETTES
(London's Best)

Don't Go To London For Your Cigarettes

—Nor Have London Send Them To You

There's really no longer need for you to pay the imported price for London cigarettes. For the London cigarette-making secret has at last been imported. Doubt this, you may, but—

Just go into the next shop you meet and ask for a box of El Hamurs—the new cigarette.

Light one, and note its peculiarly delightful mellowness of fragrance and flavor—that quality you never found before except in the best London-made—a quality that exists here only in the

El Hamur Cigarette

Made By London Experts

If there's a difference between this and the imported, it's in El Hamur's favor. For *imported cigarette duty* never yet improved a cigarette—except in some imaginations.

El Hamurs are from such duty free. What folly for the makers to pay this when they possess the secret of London-making. And similar folly would be yours if you continued to pay the imported price. But you won't, once you try an El Hamur.

El Hamurs Are At All The Better Shops

As a drawing room electrolier, this is especially suitable, though of course we have numerous others, either one of which you may prefer instead of the above.

HINTON ELECTRIC CO.

WILL RE-SUBMIT LIBRARY BY-LAW

Measure to Increase Annual Expenditure for Maintenance Will Again be Submitted to Electorate

On the 22nd inst. the two months limit within which the Library bylaw recently defeated by the ratepayers, cannot again be submitted for approval of the electors will expire, when the measure will once more be brought forward. As the Municipal Clauses Act prescribes that no measure once defeated can be re-submitted until after the expiration of two months from the date of its first defeat and unless a petition signed by fifteen per cent. of those entitled to vote upon it is presented to the council asking for it again being presented to the ratepayers blank forms of petitions are now in circulation and can be found at the library building. The petitioners must also guarantee the payment of the expenditure connected with the new vote, but in this particular case Mr. Justice Martin has generously consented to guarantee the payment of such expenditure, his offer in this connection made to the city council pointing out the great importance of the passing of the bylaw.

The Library bylaw was submitted for the purpose of securing the consent of the ratepayers to an increase in the sum now available for annual maintenance from $5,000 to $25,000. So rapid has been the growth of the city and the resultant demands upon the library that the sum now available is wholly inadequate if the institution is to be kept up to date and made to serve the needs of the rapidly growing circle of readers.

More Money Imperative

When the city made its agreement with the Carnegie Trust for the construction of the building it was agreed that the minimum sum to be annually expended by the city for maintenance was to be $5,000. The necessary by-law to authorize this agreement fixed the sum at that amount but unfortunately also limited the city to that figure as a maximum amount. Now when the city is growing so rapidly and the scope of the library's work has become so enlarged more money is imperative. In asking that the sum be fixed at $25,000 the library commissioners do not mean to indicate that the annual maintenance will cost that amount, but rather that if that larger sum be fixed there will be no necessity in two or three years, when the city has still further grown, to come back to the ratepayers with another bylaw. This year the expenditure is estimated to cost somewhere in the neighborhood of $10,000. This sum includes the addition of one or two necessary departments, a new system of filing and a new method of cataloguing. Unless the larger sum be voted the work of this most deserving institution will be so greatly hampered that it will be wholly inadequate to the demands made upon it.

RAILWAY CONTRACTS

Forty Miles of Kettle Valley Line to be Built by Seattle Firm of L. M. Rice & Co.

VANCOUVER, July 14.—The Kettle Valley lines have just awarded to Messrs. L. M. Rice & Co. of Seattle a contract for the construction of forty miles of the main line, from Bull Creek to the summit near the headquarters of the west fork of Kettle river. The same contracting company have just completed the grading of a section from Midway in the boundary district, west to Bull Creek and twenty miles of track have been laid. The distance from the summit to Penticton is only 35 miles.

Mr. Ralph Smalles, a member of the L. M. Rice & Co., stated yesterday that the work on the new section will be rushed without delay. The next six weeks will be devoted to establishing construction camps and shipping in grading outfits.

The route of the railway is through the Okanagan and Similkameen districts across the Hope mountains to Hope, where the Fraser will be bridged to provide connection with the Canadian Pacific railway. Another section connecting with the C. P. R. at Merritt, in the Nicola Valley, and extending south to the headwaters of the Coldwater river on the Hope summit, a distance of forty miles, is now under construction. The track has been laid for over 20 miles.

Ontario Fruit Injured

TORONTO, July 14.—Showers on Tuesday did little to revive the parched land. A heavy shower which passed along the south shore of the lake over the Grimsby district, laid the dust, but did not help the berries and small fruit and damaged the cherries which had matured to a fine quality. Along the north shore the fruit is withering from want of moisture. Raspberries will be a poor crop. Currents and gooseberries are burned on the bushes. California table cherries are 50 cents for a small box in the stores, while native grown goes begging at $1 for a six-quart basket.

LONDON, July 14.—The freedom of the city of Bath was conferred today upon Lord Strathcona. The mayor, moving the resolution, said Wellington and Nelson were on the list and Strathcona's name would add lustre to the roll. Strathcona signed it amid great demonstration.

INCREASE IN WORK OF SURVEYS BRANCH

British Columbia's Expansion Illustrated by Augmentation of Energies Necessary in Lands Department

Great changes have recently taken place in the internal arrangement of the offices in the provincial public buildings devoted to the surveys' branch of the land department, now under the administrative charge of Surveyor-General Dawson. These changes are, however, no greater than those that have been accomplished of late in the arrangement of the work itself, and the augmentation and distribution of the staff, the work of the surveys branch having during the past few years developed by leaps and bounds so that it is only by special and continuous effort that it is approximately kept up with.

To illustrate this growth, which in its turn reflectively illustrates the rapidity and substantiality of British Columbia's expansion, it may be noted that already—with the twelve-month but half completed—there has been received during the current year in this department a greater volume of business than the total for 1910, which in turn was heavier than in any previous twelve-month. To be specific, there have come in to date this year, field notes of the surveys of no fewer than 3,363 lots, of from 160 to 640 acres each, while in the corresponding period of last year the total was 1579—or not quite one-half.

Despite this notable expansion of the business demanding attention, the present staff is demonstrating its ability not only to care for the work as it presents itself, but also to steadily reduce office work some six months in arrears, very largely as a result of the ever-present difficulty in securing adequate office accommodation. This handicap is a heavy one, but nevertheless the piled up work is being gradually caught up with, the staff being increased as opportunity for securing additional room and facilities for the workers presents itself.

And in this connection it is in order to mention that only thoroughly qualified and technical men are now being taken on.

The just completed alteration of the interior arrangements of the offices includes the division of the old office of the Surveyor-General into a smaller private office for this hard-worked official and a commodious stenographers' room, while the wide corridor end now is utilized in the provision of additional accommodation for the draughtsmen.

Increase in Staff.

In further demonstration of the growth of the work, it is interesting to note that whereas at the beginning of the year the staff numbered eighteen with fifteen draughting tables, there are now employed no fewer than twenty-six, with a table for each.

When the position of surveyor-general was offered to Mr. Dawson, that gentleman made his acceptance conditional upon his being first permitted to visit Toronto, Ottawa and others eastern centres for the purpose of studying the systems there in vogue. The result is evident in a more workmanlike and systematic arrangement of the department, and also in the presence of a number of lately engaged and especially proficient specialists in the draughting room. At the head of these is Mr. J. E. Umbagh, D. L. S., late of the Dominion surveys branch, whom Surveyor-General Dawson was fortunate while in Ottawa in tempting to come west.

Mr. Umbagh has now been on duty here since latter May and already has his forces well in hand. It has been an amazing thing for him to discover that the volume of work in plotting and the preparation of plans in this little Provincial capital is in reality greater than it is at Ottawa, where the surveys branch has an entire building to itself, with ultra-modern equipment, and where an official staff of about one hundred and seventy is constantly engaged.

Grand Jurors in Trouble.

CHICAGO, July 14.—Members of the United States grand jury, which today returned indictments charging three internal revenue collectors with receiving bribes, and 21 officers and employees of butterine factories with conspiracy to defraud the government, are facing complications and possibly prosecution as the result of an investigation of a grand jury "leak" which began as soon as the indictments were returned.

Taxi-Cabs Not in Bylaws.

MONTREAL, July 14.—That the police have no power to arrest a man for refusing to pay his taxi-cab bill was the judgment rendered today by Judge Lanctot when Thomas Davis was arraigned on the charge of refusing to pay for a taxi. Judge Lanctot explained that while a man was compelled to pay for cab hire as a consequence of the civic bylaw, there was nothing in either the city bylaws or the criminal code referring to such up-to-date vehicles as taxi-cabs and as a consequence allowed Davis his liberty.

Nationalist Whip Finds Seat

LONDON, July 14.—Anthony J. C. Donelan, the Nationalist whip, who was unseated by the courts, was today elected unopposed for the East Division of Wicklow, Ireland, in succession to John Muldoon, Nationalist, who retired to make a vacancy for Donelan. The latter defeated William O'Brien in the East Division of Cork county in the last general election, but lost his seat because of the illegal acts of his political agents.

Horse Versus Auto

PORTLAND, July 14.—W. G. Grant, of New York city, is here mapping out a route and plans for a race across the continent between an automibile and relays of coaching horses. Fifty thousand dollars, subscribed by wealthy eastern horse fanciers, hinges on this novel speed contest. Grant is confident the horses will win. The course laid out is from New York City to San Francisco. If the animals arrive at their destination in good condition the drive will be continued to Portland and Seattle. Grant plans to utilize 100 horses in relays of from 20 to 30 miles apart. As soon as one four has been driven its allotted distance it will be rested and shipped ahead to be hooked on two days later.

E. D. McTaggart has been retained by Vancouver City to compile all existent health bylaws of that municipality and formulate new ones to meet present necessities in prevailing conditions.

An application has been made to the Burnaby council for a franchise for ten years for the operation of a rail line of motor cars from the B. C. E. R. company terminus at Boundary road through to Port Moody, via the Barnet road.

After four years of expensive preparatory work, actual construction has begun of the B. C. E. R. Co's. Coquitlam Dam.

NOTICE OF EXECUTORS TO FILE CLAIMS

(R. S. C. B., C. 187, S. 26)

IN THE MATTER of the estate of Thomas Dixon Galpin, late of No. 1 Palace Houses, Kensington Gardens, in the County of London, England, Deceased.

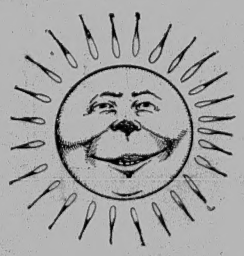

NOTICE is hereby given that all persons having any Claims or demands against the late Thomas Dixon Galpin, who died on or about the twenty-fifth day of April, 1910, at his aforesaid place of residence, are required to send by post prepaid, or to deliver to the undersigned Solicitor herein for Theodore Albert Mitchell, Sidney Clement Galpin and Joseph Eaton Faning, of London, England, Executors and Trustees under the will of the said Thomas Dixon Galpin, their names and addresses and full particulars in writing of their claims, and statements of their accounts, and the nature of the securities, if any, held by them.

AND TAKE NOTICE that after the tenth day of August, 1911, the said Executors and Trustees will proceed to distribute the assets of the said deceased, among the persons entitled thereto, having regard only to the claims of which they shall then have had notice, and that the said Executors and Trustees will not be liable for the said assets, or any part thereof, to any persons of whose claim they shall not then have received notice.

DATED at the City of Victoria, the fourth day of July, A. D. 1911.

A. E. McPHILLIPS,

Solicitor for the said Executors and Trustees. Offices: Davie Chambers, 545 Bastion street, Victoria, B. C.

Ross' Grocery Store Is Headquarters For Picnic and Camp Supplies

If you are not living out at cottage or camp, of course you are going Picnicking every few days for the remainder of the Summer. Doubtless you'll require the tasty things that go to make appetizing sandwiches and other niceties that add to the enjoyment of outdoor life. Nowhere in British Columbia will you find that recognition of high-grade quality more efficiently depicted than in this up-to-date store, rightly termed a "Model Grocery." It is our object to supply the best and cleanest goods—full weight—at lowest possible prices. We pride ourselves on our courteous clerks and prompt delivery service. May we not add you to our list of patrons?

TEMPTATIONS FOR SUNDAY MENUS

REVENUE FOR FISCAL YEAR

(Continued from Page 8.)

sistance of a pilot for which reason this board of trade has, for some years past, advocated the abolition of so-called compulsory pilotage. At present the only thing compulsory is the payment of the pilotage dues, for the pilots do not board many of the vessels from which the collections are made. This subject is referred to simply to show that it is not lost sight of.

Harbor Railway.

A company, recently formed, has submitted to the corporation of Victoria plans for a railway which it is proposed shall serve all the water front of Victoria harbor. Commencing at the outer wharves the line would follow the sinuosity of the harbor along the James Bay side, crossing in front of the Causeway and continue to Point Ellice, a bridge being necessary to get on to the Indian reserve, where connection would be made with any railway systems which may locate there. The promoters contemplate making this harbor railway an independent feeder to all the transcontinental railways doing business in Victoria. As there is no question of such railway facilities being essential in the development of the port it only remains to adopt the plans which will best meet the exigencies of the situation. This board of trade has not yet had an opportunity of examining the plans submitted to the city council but it may be said that the promoters are entitled to credit for making such an important undertaking a live issue and it is sincerely to be hoped that in the event of the project as submitted not being quite satisfactory modifications may be agreed to in order that there may be no delay in providing facilities for the transfer of freight into or from cars standing alongside deep-sea and coasting vessels.

Graving Dock

The board is to be congratulated upon the success of its representations to the Dominion government in respect to the construction of a new drydock at Esquimalt for the accommodation of modern ships of war, or the largest vessels engaged in commerce. At present there is no such accommodation on the Canadian Pacific seaboard but the Dominion government recognized the board's cautions and has approved plans for a drydock at Esquimalt 900 feet in length and 100 feet wide at the gate. Construction will be aided by a guarantee of 3 1-2 per cent for thirty-five years on an expenditure of $2,600,000.

Fisheries—Salmon

A total of 762,201 cases of salmon were canned in this province during 1910, of which 565,915 cases were sockeyes. In the previous year the totals were 967,920 and 840,441 respectively; but that was the year of the big run in the Fraser river, and compared with any other season in the series of four years, the 1910 pack was the largest on record. This was chiefly due to the good run in northern British Columbia waters, record catches being secured at both Skeena river and Rivers Inlet. The total catches at Skeena river and Fraser river were about the same, but the Skeena total comprised a much larger proportion of sockeyes. On Fraser river 61,000 cases of white spring and chum or dog salmon were packed, this being the first year in which they have been extensively canned on this side.

There was an exceptionally good demand for canned salmon last season, which caused high prices to rule, and this created an outlet for the inferior and cheaper grades which, no doubt, will now all find a market, instead of being wasted as heretofore.

Notwithstanding the threatened depletion of the sockeye fishing in Fraser river and Puget Sound, the labors of the international fisheries commission have been nullified by the opposition raised by American interests to the protective measures proposed; and this year fishing preparations are being made on Puget Sound on an extensive scale, which will seriously threaten Canadian interests and the perpetuation of the industry so far as sockeyes at Fraser river and Puget Sound are concerned. Considering that Canadian fishermen and canners are forced to observe a long close-time each week, besides many other restrictions, while on Puget Sound it is notorious that fishery regulations are not observed, there is a growing feeling that it is useless for Canadians to continue to penalize themselves for the benefit of Puget Sound interests.

Weather conditions favored the San Juan de Fuca traps last season, and unusually good catches were made for an off-season. 24,846 cases salmon were packed at the Esquimalt cannery, of which 17,287 cases contained sockeye fish. A poor sockeye season being expected the Capital City cannery at the outer wharf here was not operated, the fish from the traps in connection therewith being sent to the Fraser river and canned there.

Two mild-curing plants were in operation in Victoria in conjunction with the traps and about 500 tons red spring salmon were treated. Also, about 150 tons of salmon were frozen here. Altogether, a large amount of trade was brought to this city by the trap business.

Agriculture

This board is indebted to the honorable the minister of agriculture for the following remarks in regard to agriculture:

The past year has witnessed satisfactory progress in all branches of agriculture. The increase in production in 1910 over 1909, amounting to $5,899,090. The estimated agricultural production of 1909 amounted to $8,500,000 whilst from statistics compiled by the department of agriculture for 1910 the production is shown to be $14,399,090.

The past year has witnessed a large emigration of a desirable class of settlers to Vancouver Island, most of whom have been possessed of sufficient means to acquire land and engage in general farming and fruit growing operations. This state of affairs is mainly attributable to the excellent publicity and exhibition work which has been conducted during recent years by the provincial government, through the department of agriculture and the bureau of information, and also by the Vancouver Island Development League.

It is anticipated that this influx of settlers will materially increase each succeeding year and that shortly much of our at present non-productive farming lands will be occupied by a good farming class and thus become productive.

The unrivalled possibilities and magnificent climate of the southern half of Vancouver Island are becoming well known throughout the world, especially in Great Britain, and great development may be anticipated in the near future.

Perhaps no other country in the world possesses such unique advantages for poultry raising, mixed farming, dairying and fruit growing, as this portion of the province. Good prices can be realized for all farm produce and when we consider the amount of our importations we can realize what room there is for extension in all branches of farming.

Labor conditions are in a more satisfactory state at the present time than last year—due no doubt to the large influx of settlers and others seeking employment.

The great successes hitherto achieved rewarded the fruit exhibition work conducted by the department of agriculture in Great Britain, Prairie provinces and eastern Canada during 1910.

At the annual Royal Horticultural society's show, held at Vincent square, London, December, 1910, the province secured a signal honor in receiving the large Hogg gold medal—this being the first time this medal has been awarded by this society. As it is only given for superlative excellence, the significance of this distinction can be appreciated.

Exhibitions were conducted at twenty-four different centres throughout the United Kingdom and eighteen gold medals and six silver and gilt medals were awarded.

The Vancouver National show also witnessed great triumphs for British Columbia fruit. The sweepstakes carload prize was awarded to provincial fruit, as also two of the mixed carload exhibits and this against strong competition from the principal fruit districts of Oregon and Washington.

Vancouver Island also secured first prize for a carload exhibit, the fruit of which was procured from the neighborhood of the city of Victoria.

These successes plainly demonstrate the superior quality of British Columbia fruit.

The fruit crop of 1910 was very heavy and fairly remunerative prices were secured for all fruits with the exception of peaches.

The demand for good farming lands on Vancouver Island especially in the neighborhood of Victoria, has been very marked. This has caused the subdivision of large holdings and a more intensified system of farming, which naturally results in an increased production from the same area of land.

The efforts of the department of agriculture towards securing clean, healthy orchards is plainly evident when a comparison is made between the orchards as are now seen from what they were some years ago. This has been accomplished by the educative work conducted by the horticultural branch of the department and by object lessons taught by demonstration spraying work, carried on under the direction of the inspector of fruit pests, during the past few years. There are now many up-to-date commercial orchards in the vicinity of Victoria, particularly at Gordon Head, which plainly shows what can be done on Vancouver Island in fruit culture by the adoption of correct cultural methods.

The department of agriculture conducted during the past season thirty fruit packing schools, throughout the province, several of which were held on the Island, at which, for a nominal fee, any one could secure expert tuition in scientific fruit packing from the best men that could be secured by the department.

The duration of these schools was one week, with six hours tuition per day. This will undoubtedly result in better grading and packing of fruit for the market and consequently enhanced returns from the grower. Putting the fruit on the market in an attractive form is the secret of success in fruit growing.

Co-operation towards marketing the products of the farm and thus securing the best prices, has made some progress, though there is room for much development along this line.

Poultry raising is receiving much attention, especially in the Cowichan district where successful egg collecting station, poultry fattening plant, have recently been inaugurated by the Cowichan Creamery company, which has proved of material advantage to the producer.

Considerable wild land has been brought under cultivation during the past year. The sales of stumping powder, which is supplied all members of Farmers' Institutes at a reduced price, testifies to this fact. The heavy cost of land clearing naturally retards the rapid development of our agricultural lands on Vancouver Island.

Excellent work has been conducted in inspecting dairy herds and destroying all animals infected with bovine tuberculosis. The value of this work amongst the dairy herds supplying milk to the Coast cities, cannot be over-estimated. It is anticipated that by continuing this vigorous campaign against bovine tuberculosis, that this insidious disease, which it has been conclusively proved

(Continued on Page 15, Col. 1.)

Alexandra Park

IS DIRECTLY SOUTH OF UPLANDS FARM

Alexandra Park is directly south of Uplands Farm, which sold for over $3,000 per acre.

Alexandra Park is a subdivision fronting on Oak Harbor.

Alexandra Park lots contain **Nearly One-Quarter Acre Each.**

Alexandra Park lots are on sale at **$850** per quarter acre.

When Uplands Farm shall have been improved with streets, etc., the lots will be worth from $2,000 each and upwards. We base argument on the fact the two waterfront lots in Alexandra Park SOLD in our office for $2,000 each and are now held at $2,500 each.

Alexandra Park lots purchased at **$850** per quarter acre should show a large profit in the immediate future. Only a few left.

Terms: About one-quarter cash, one-eighth of price in three months, one-eighth in six months and balance in 1, 2 and 3 years, at 6 per sent.

Sixty Acres Saanich

Good land, very little rock, uncleared.

$100 Per Acre

Terms: $1,500 cash, balance over 1, 2 and 3 years, at 7 per cent.

Hillside Avenue

Lot, 39 x 100, with 6-room House, near Graham Street. Good terms can be arranged **$3,150**

On the Waterfront

LINERS LEAVE OUTER WHARF

Makura Sails for the Antipodes with Many Notable Passengers on Board—Tasmania's Premier Sails

EMPRESS OF CHINA FOR THE FAR EAST

Salmon Shipped in Cold Storage as Part Cargo of Canadian - Australian Liner Which Sailed Yesterday

Two liners left the outer wharf yesterday, the R.M.S. Empress of China, Capt. Archibald, for Hong Kong and the usual ports of call in the far east, and the R.M.S. Makura, Capt. Gibbs, of the Canadian-Australian line, for Sydney, Via Honolulu, Suva and Brisbane. The Empress of China had 35 passengers, and the Makura 200, and the white liner had her holds full, the cargo including flour, machinery, condensed milk, and general freight, and the Makura had about 1,200 tons of general merchandise, including drugs, automobiles, and other goods. The Empress of China had as passengers Mr. and Mrs. W. T. Payne, the former of whom is the manager for the C. P. R. in China; Mr. and Mrs. Scranton, and Mr. and Mrs. F. Morgan, bound to Manila. Mr. Scranton, who is a prominent shipper in the East, is going to Manila to study conditions there. Mr. Morgan is the manager of the largest shipping firm in Manila and is returning after a visit to the country.

Passengers on the Makura included Sir Elliott Lewis, Premier of Tasmania, who is returning after attending the Coronation, and Admiral William H. Henderson, who is bound to Australia in connection with the naval programme of the Commonwealth. Mr. W. E. Vincent, who has been at Vancouver for some time representing Australian newspapers is returning to Sydney accompanied by his wife. Master Esmond Stanley, son of Judge Stanley of Honolulu, who has been attending school in Victoria, returned home by the steamer. Mr. F. W. Everton, superintendent of missions to seamen at Honolulu, and wife returned from a visit to British Columbia. Other passengers were Messrs. T. H. Rankin and Edward Bull, of Vancouver; Mr. and Mrs. Warren Blyth, Mr. Chas. E. Smith, Dr. and Mrs. Raynor, Dr. and Mrs. Merrill, Mr. T. L. Sherrington, Dr. E. W. Culley, Mr. J. Stiven, Mr. H. S. Hughes, Mr. P. W. Griffith, Mr. R. H. Brown, Mr. E. Spalding, Mr. E. Ramsden; for Honolulu: Messrs Harry Cummings, Robert McGreer, Allan Bosworth, Hurn Blydon, Miss F. Cash and Miss N. Boyle, Mrs. C. E. Copeland, Mr. M. Finnegan, Mr. F. W. Patterson; for Brisbane: Mr. and Mrs. Thos. McKenzie, Mrs. W. Robinson, Mr. Jack Ball, Mr. E. D. Day, Mrs. T. E. Dixon; for Auckland: Mr. and Mrs. J. Alexander, Mr. G. Sinclair, Mr. T. E. Montgomery.

Included in the cargo of the Canadian-Australian steamer was a shipment of salmon from the Skeena river, brought south yesterday by the steamer Princess Beatrice and consigned to the Antipodes in cold storage.

TEES AND PRINCESS BEATRICE RETURN

Former Bring's Many Passengers From Quatsino and Way Ports—Latter From Queen Charlottes

The steamer Tees, Captain Gilliam, returned yesterday morning from Quatsino and way ports of the west coast of Vancouver Island with 85 passengers and a fair cargo of general freight, including whale products, pottery clay, etc. The Tees had a good trip, fine weather prevailing throughout. The steam whalers were very busy off the West coast, a record catch having recently been made at Kyuquot where as many as 39 whales were taken in one week. The steamer sailed again for the West coast last night, bound to Clayoquot and way ports with a fair complement of passengers.

The steamer Princess Beatrice, of the C.P.R. is back from Prince Rupert and Queen Charlotte Islands, Capt. J. H. Whiteley will probably make another trip before leaving the service to become a Victoria pilot. Included in her cargo were five shipments of barrelled salmon, one of which was loaded on the steamship Makura for the Australian market. The rest was discharged at the cold storage plant for shipment eastward by rail, some going as far as New York. Among the passengers disembarking here were Mr. Atkinson and family of Queen Charlotte City, Mrs. and Miss Spencer, and Mrs. Cameron, who came down from Prince Rupert.

JAPAN SEEKS TO INCREASE ARMAMENTS

Many Millions Sought by Naval and Military Rulers, But Financiers Are Unable to Secure Funds

News was brought by the Seattle Maru that at the next session of the Diet application will be made for great sums for naval and army increment for Japan. The navy asks 200 millions spread over ten years and the army seeks 150 millions, proposing to add six divisions. The last budget provided 42 millions for the navy and two Dreadnoughts and three armored cruisers were arranged. The government is willing, if not anxious, to provide the money sought, but is at a loss how to procure it. The country cannot stand further taxation without difficulties arising.

ASIATICS IN THE TRANSPACIFIC TRADE

The new Chinese ocean steamship line, planned to be started with four vessels acquired from the Dollar company, will mean the beginning of another phase of Pacific ocean steamship business. With the coming of the Japanese subsidized lines, manned by cheaper labor than the other services, it was considered that the other lines would suffer and the United States services have since dwindled, with but one steamer, the Minnesota is plying across the North Pacific under the United States flag. Chinese seamen have long formed the greatest proportion of the crews of the steamships of all flags in the transpacific trade. During the past year 81.1 per cent. of the crews of British, European and American vessels which entered the port of Hongkong were Asiatics. The Chinese line, now being organized, proposes to use for the time foreign masters and engineers and Chinese crews, gradually eliminating the foreigners as the Japanese lines have done.

The substitution of Japanese officers for the foreign officers heretofore employed upon certain Japanese ships has been made in accordance with instructions received from the Japanese government by the Nippon Yusen kaisha. All vessels running on the subsidized routes will have Japanese commanders as one condition for obtaining the government subsidy. On the Australian line of this company there are three vessels. At last accounts two of these were in command of Japanese and the third under Capt. Wincker. On the European run are eleven ships. Six of these are under Japanese captains, the remaining five under foreign commanders. On the American line drawing subsidies are one Japanese and one foreign captain, while on two of the steamships not drawing subsidies from the government there are at present one foreign and one Japanese captain. One foreign engineer recently severed his connection with this company after a continuous service of 41 years. Other officers leaving the service by reason of the changed policy have served 8 to 16 years. These changes are particularly noticeable in view of the fact that there is already a great number of foreign steamship officers in the far east seeking employment.

Chinese and Japanese are gradually increasing in number upon British and foreign vessels, a British tramp which recently arrived here having a Japanese as one of her certificated engineers. There is a growing disposition on the part of shipowners to have Chinese crews brought across for the Pacific for various vessels, the Boveric and Henley having recently imported crews of Chinese. The Chinese sailors and firemen receive $6 to $7 per month and stewards, $5 to $7, as compared with $45 per month paid to others than Asiatics, and the Chinese employees can be boarded for $4 per month as compared with $15 to $18.

SEATTLE MARU FROM THE ORIENT

Osaka Shosen Kaisha Liner in Port from Japan—Woman's Interesting Trip in Korea and Manchuria

The steamer Seattle Maru, of the Osaka Shosen Kaisha, reached the outer wharf yesterday morning with 1,500 tons of cargo and 161 passengers, including Mrs. L. W. Bailey, who has been traveling in Korea and Manchuria and, owing to an incorrect telegram sent to Japan, was heralded by the Japanese newspapers as a correspondent of the London Times, and Mr. Randall a rancher resident near Seattle, who is returning from his sixth yearly trip to Shanghai with cattle. They were the only European passengers. There were three Japanese in the saloon and 110 Chinese in the steerage for Victoria. The Japanese liner, which left Yokohama on June 30, had a smooth and uneventful passage across the Pacific. Tea formed the largest shipments in the cargo, there being about 16,000 packages. There were 431 bales of silk, and the usual shipments of matting, rice, curios, beans, bean oil, soy, peanuts, rattan furniture, etc. Sake, that sweetened Japanese liquor in tubs, formed the largest shipment in the freight for this port, with rattan furniture next in size.

Lonely Trip.

Mrs. Bailey, who made an interesting trip, not often undertaken by a lone woman, through Korea and Manchuria, said the journey had proven most interesting. She spent some time in Japan and then crossed to Fusan, from where she journeyed over the new railroad to Seoul, and on to Wiju, from where she joudneyed over the new railroad through the Chien Shan range to Mukden from Antung. Mrs. Bailey said the Japanese had done wonders since the annexation of Korea and great steps were now being undertaken to educate the Koreans, but it is strange how the Orientals all cling to ancient customs. At the normal school at Seoul she found that recently there was a strike of the Korean students owing to the fact that the "Kangs"—the bricked platforms which form the bed of the native, were not included in a structure built after the western model. The new viceroy of Manchuria was doing much good in that province, in which both Russians and Japanese were strongly in possession. When Mrs. Bailey was in Dalny some Japanese newspaper correspondents interviewed her and somehow gained the impression that she was a newspaper correspondent and since she has been proclaimed far and wide in the Orient as a special correspondent of the London Times.

Mr. Randall, who some months ago took out 24 head of cattle to Shanghai, said he had been engaged in this business for the past six years, making usually one trip, sometimes two trips, a year. He found that they did not thrive well at the Settlements, however. Of the 74 head he took out on his previous trip he found but six alive, rinderpest having carried off the balance.

China's Changes.

News was brought by the Seattle Maru that a grand convention of Chinese from many provinces has been called to meet at Peking to start a movement calling upon China to demand the withdrawal of legation guards from Peking by foreign powers. The Ashai Shimbun of June 28th says this decision was reached at a joint conference of provincial assemblies, which met that day at Peking. The speakers said the presence of legation guards was a disgrace to China. Another Peking despatch said a great demonstration of Hupeh residents is soon to march to Peking to start a demonstration against the proposed nationalization of China's railways and to arouse interest in constitutional government. China has arranged to despatch Mr. Ching, vice-president of the Bank of China to America and Europe to confer with bankers for currency reform in China.

Seaman Gunner Murdered.

With his legs trussed with cords, the body of Seaman Gunner Alvin Root of the U. S. S. Albany, was picked up in Yokohama harbor on June 26th, being brought up by the turning of the screw of the steamer Tamba Maru. In the pocket was a photograph of a woman of Bloodtown and a twenty dollar gold piece. The cord indicated that a weight had been attached to sink the body. The Albany left Yokohama on June 10th. No clue had been found when the Seattle Maru left as to the tragedy. Root was known as a thrifty, steady man, and had a savings account of $400 with the paymaster of the Albany. A funeral party was landed from the U. S. S. New Orleans for a naval funeral at Yokohama on June 28th.

According to advices from Yokohama by the Seattle Maru, the seaman Atkins, who killed stoker Saunders of the Saratoga and was sentenced to five years' imprisonment by the Japanese courts, has appealed and a fund has been subscribed on the U. S. warships of $2,000, an American lady resident at Yokohama contributing a quarter of this amount, to aid the appellant.

MUSASHI RESCUES JAPANESE SEALERS

Survivors of Schooner Found on Verge of Starvation on One of Islands Kurile Group

News was brought by the Seattle Maru that the Japanese gunboat Musashi which started on a cruise toward Bering sea to patrol among the Japanese sealing schooners did not proceed further than the vicinity of the Commanderofski islands and has returned to Japanese waters, bringing the rescued crew of the Japanese sealing schooner Tei-ichi Maru, which went ashore in the Kuriles during the typhoon of June 22nd. The thirty-five sealers were found in a starving condition on bleak Etorofu island. Seven of the sealers had taken a boat saved from the wreck and started for Shikotori to find succor for their comrades and when their report was telegraphed to Admiral Uryu at Yokosuka he ordered the Musashi to the scene and all were rescued. When the warship arrived the shipwrecked company was on the verge of starvation.

REVENUE FOR FISCAL YEAR

(Continued from Page 11.)

may be conveyed to human beings by the use of infected milk, may eventually be practically eliminated from the province.

The department of agriculture has added additional experts to its staff during the past year in the different branches. The men secured have had a good practical and college training and are well versed in their particular branch of farming.

The department is now classified under the following headings, with an expert official at the head of each branch: Horticultural, livestock, dairying, poultry, inspection of fruit pests and statistics.

All associations connected with agriculture, and which receive assistance from the provincial government, work in co-operation with the department of agriculture an official of the department acting as secretary of each association.

Farmers' Institutes and Women's Institutes are being formed throughout the province, the membership rolls of which are increasing rapidly. The formation of these institutes is encouraged by the department and is undoubtedly productive of much good to the district in which they are established.

Agricultural conditions on Vancouver Island are very encouraging at the present time and a vigorous policy of advertising the possibilities of this district should be pursued.

The province is importing far too much produce at the present time which ought and can, with profit, be raised at home and it is only by the settlement of the land that this unnatural drain on the province's resources can be eliminated.

Naval Construction

In view of the decision of the federal government to provide for the naval defence of Canada and to distribute the fleet on the Atlantic and Pacific coasts it was expected that arrangements would be made for the establishment of construction works simultaneously on each of the seaboards. It appears, however, that in calling for tenders for the construction of the nucleus fleet that a clause was inserted in the form of tender providing for the payment of the standard scale of wages obtaining in whatever locality the ships are to be built. Under such conditions, provided the lowest tenders are accepted, no portion of the work can possibly be carried out in Canada in consequence of the wages payable here being so much higher than the wages paid for such work in Great Britain. Assuming that the federal government should decide that the general advantages to Canada of having these vessels built in the Dominion would offset the differnce between the British and Canadian tenders there remains to be considered what allowance should be made for construction on the Pacific Coast where wages are higher than they are on the Atlantic.

The opinion of this board is most emphatic that the Canadian ships of war should be built in Canada, and that construction works should be simultaneously established on both coasts. At this stage, the question of cost should be secondary to that of policy.

These views, which are fully endorsed by the Vancouver board of trade, have been communicated to Sir Wilfrid Laurier, but until his return from the coronation it is unlikely that any decision will be arrived at. The problem is not considered too difficult to be solved on the lines here indicated as a precedent will be found in the bonuses given to assist in the establishment of the iron and steel industries which were taken advantage of in eastern Canada at a cost to the Dominion of some $15,000,000, to the very great benefit of the country. It is not unreasonable to ask that, if necessary, the principle involved in the iron and steel bonuses be extended to secure the establishment on this coast of a shipbuilding plant equal to the probable future requirements of the Canadian navy as well as of the mercantile marine on the Pacific Ocean.

Trade and Outlook

The following figures furnish an index to the progress of business in Victoria during the period under review:

	1911.	1910.
Imports for 12 mos.	$6,506,787	$5,416,834
Exports for 12 mos. to 30th June	1,132,228	1,326,298
Customs collections to to 30th June	3,669,779	2,048,064
Inland revenue to 30th June	245,126	230,454
Postoffice to 30th June approx.	120,000	90,000
Tramway passengers carried, number	6,579,336	5,285,304
Value of building permits	2,502,755	2,087,055

Bank clearings percentage of increase over 1910, 64½ per cent.

A satisfactory feature of these results is found in the fact that the business of the past six months accounts for much the greater proportion of the increases. The development of natural resources tributary to Victoria is now advancing more rapidly than ever before, and as railroad construction on Vancouver Island proceeds the volume of business will be appreciably augmented.

In anticipation of such conditons three more Canadian banks have recently opened branches in the city; the commercial agencies, also, have found that their business requires the openings of offices here. New business blocks of re-enforced concrete afford a marked and satisfactory contrast to previous methods of construction, and the work of paving streets is advancing as fast as possible. Woodblock paving is being discontinued and asphalt will hereafter be used. The contract recently let for paving about 36 miles of street is said to be the largest award made at one time in North America. The transportation companies report that travel has increased beyond expectations, and it must be remembered that the tourist business has only commenced.

The Canadian Pacific railway company are entitled to great credit for the manner in which they are meeting the situation by providing new steamers. In point of comofrt the Princesses Adelaide and Mary show great improvement upon earlier arrivals, which at one time were considered to be the "last word" in marine construction for this class of trade. Interest is now centred on the Canadian Pacific Railway company's Princess Alice, just launched at Newcastle-on-Tyne, for the Victoria-Vancouver route and another vessel, building, for the northern route. This company engaged in coasting tributary to Victoria; which is the home port of the fleet. The vessels owned by the Grand Trunk Pacific company are worthy comhas now in commission eighteen vessels petitors for Victoria business and very soon the Canadian Northern Pacific Railway company will find it necessary to operate steamers on this coast. Mention must also be made of the Boscowitz S. S. company, with head offices in this city, for the very excellent service given to all northern British Columbia coast points.

The hotels are crowded to capacity and notwithstanding last year's addition to the Canadian Pacific Railway company's Empress hotel, accommodation there is still overtaxed and construction of another wing is to be commenced at once. The Grand Trunk Pacific Railway company have acquired a beautiful site for a hotel, opposite the Parliament Buildings, and the board has informed Mr. Chas. M. Hays, president of the company, that early construction of the hotel is necessary in order to take care of the increasing business.

These improved business conditions are reflected in the realty market and it is encouraging to find a conservative corporation like the Hudson's Bay company paying for a site for a large departmental establishment at a figure which a year ago would have been considered out of the question.

To the council of the board and various committee are due credit for the time which they have expended on public matters during the past twelve months. They have well sustained the business reputation of the board, notwithstanding fewer general meetings, and the increased membership with which the year closes augurs well for its future usefulness.

H. G. WILSON,
President.

PUBLIC FIGURE PASSES OFF STAGE

Mr. Thomas Earle, Identified Politically and Commercially with Upbuilding of the West, Dies in Victoria

Mr. Thomas Earle, an old time resident of Victoria, who had filled numerous public positions and who was prominent in some of the principal railroad construction undertakings of the new west of his time, died at the family residence, 1461 Fort street, late on Thursday night. Ten years ago the late Mr. Earle retired from a life during which he earned the title of one of the builders of the northwest. Not only in the capital city will his death be learned with grief, but in most every part of the northwest, which boasts of a railroad, for transportation above all was one of the principal occupations of his active career.

Mr. Earle, although not confined to his home, had been ill for several years past with attacks of rheumatism, and while death was a surprise to those on the outside, it had been expected by his near relatives and family. A widow, one son, Walter, and two daughters, Lizzie and Ethel, all of whom live at home, survive.

Mr. Earle was a Canadian, of Irish parentage, and had spent all his life in this country. In 1862 he came to the west and remained here until his death. He was born in Lanadowne township, county of Leeds, Ontario, on the 23rd day of September, 1837, and was just 73 years and 10 months old. He was the youngest son of the late Mr. William Earle, who, in the early part of the last century emigrated from Ireland and settled in western Ontario.

Was Gold Seeker

Mr. Earle was educated in his native home, and after gaining a thorough knowledge of mercantile pursuits, opened a general store in the city of Brockville, Ont., which he continued to conduct until his departure for British Columbia. After his arrival, for two years he mined in the gold-seeking days in the Cariboo with no marked success, his scene of operations being solely on Williams' Creek.

In the autumn of 1867 he returned to Victoria, and during 1865 and 1866 he held the position of bookkeeper in the grocery establishment of Messrs. J. Rueffe & Co. In the spring of 1867 he was attracted to the Big Bend region by the gold excitement there and he opened a general store in that district, which he conducted for two years. When the mines gave out, he returned to Victoria, where he entered into partnership with his former employer, Mr. J. Rueffe, in the wholesale grocery. A few years later Mr. Rueffe died, and Mr. Earle purchased his interests in the business, which for many years he conducted on Yates street above the present stand of Mr. S. Leiser.

A Railroad Builder

Subsequent to this, Mr. Earle became interested in railroad construction work, and in this he figured most prominently not only in British Columbia, but in the states of Oregon and Washington. When the charter for the Esquimalt and Nanaimo railway was given, Mr. Earle, in conjunction with Mr. McLellan, took a contract for the construction of twenty miles of the road and on this they expended over a million dollars. On the completion of the contract, Mr. Earle with Mr. J. W. McLeod, was continuously engaged on railway contract work in the Puget Sound district, and assisted in the construction of most of the railway lines in Oregon and Washington. He was at one time interested in the West Shore railroad, which connected at that time with the C. P. R.

In the flotation of such enterprises as the Esquimalt Waterworks, the Vancouver Waterworks Company and the Alert Bay Canning Co., Mr. Earle was most prominent, and he held a number of quartz mines in the Selkirk range.

As a member of the board of trade he filled for many years, the position of vice-president, and declined for several terms, the office of president. He represented the city on the municipal board in 1885, and in the same year declined the request to stand as a mayoralty candidate.

For sixteen years, supporting the Conservative policy, along with Col. E. G. Prior, he represented Victoria in the House of Commons at Ottawa. At the by-election of 1889 he was elected by acclamation to the House of Commons, and was elected at the succeeding elections of 1891 and 1896. In 1900 he lost his seat, and one year later retired from active participation in politics.

In January, 1875, he married Miss Lizzie Mason, of this city. He was an adherent of the Methodist faith.

In speaking of the death of Mr. Earle yesterday, Col. Prior, his former political colleague, said that the deceased had been one of the best known citizens of Victoria for many years. During his term as member of parliament he had been very popular, as well as in his business dealings. Col. Prior spoke in glowing terms of the past life of the deceased, and concluded by saying that he was one of the finest men in Victoria with whom he had ever had the pleasure of being acquainted.

Career as Public Man

The late Mr. Earle was for many years an active and leading figure in all that concerned Victoria and its commercial and civic interests, serving efficiently and loyally on various public bodies, and taking an exceedingly active part in the business of the board of trade, in addition to energetically championing Victoria's cause as representative of the constituency at Ottawa. As a public man he had the rare faculty of going straight to the points at issue, and his concise and keen analysis of all proposals obtaining public consideration carried weight invariably, and tended materially to their satisfactory solution.

On the platform Mr. Earle was a quiet, somewhat ponderous speaker—until aroused by interruption or captious criticism. This was the spur required to put him in fighting form, and once challenged by interruption from the audience, it was his wont to come to the very edge of stage or platform, and plunge with enthusiastic and convincing spirit into his subject. And rarely did he fail in sweeping aside all opposition when he talked thus.

As a citizen and as a friend, he was large-minded, open-handed, generous and charitable. His generosity was in fact too frequently imposed upon, and his assumption of the financial burdens of friends, even to an extent beyond his resources, contributed in large measure to business reverses precipitated by the intrusion of dull times, which darkened his later life, and left him upon the breaking of the commercial clouds a broken and discouraged man.

The funeral will take place from the family residence on Monday at 10.30 a. m. The Rev. T. E. Holling will conduct the services. Interment will be made in the family plot at the Ross Bay cemetery.

At Last, A Cure For Rheumatism

"Fruit-a-tives Cured Me" Says Mrs. Baxter

"I was a helpless cripple from Rheumatism for nearly a year. All down the right side, the pain was dreadful and I could not move for the agony. I was treated by two physicians without help.

"I saw 'Fruit-a-tives' advertised in 'The Telegram' and decided to try them. After I had taken one box, I was much better.

"When I had taken three boxes, I could use my arm and the pain was almost gone.

"After taking five boxes, I was entirely well again. The cure of my case by 'Fruit-a-tives' was indeed splendid because all the doctors failed to even relieve me. 'Fruit-a-tives' cured me.

"MRS. LIZZIE BAXTER.

"4 Home Place, Toronto, Dec. 15, '09."

In hundreds of other cases, "Fruit-a-tives" has given exactly the same satisfactory results because "Fruit-a-tives" is the greatest blood purifying medicine in the world. "Fruit-a-tives" the famous fruit medicine regulates kidneys, liver, bowels and skin, and prevents the accumulation of uric acid, which is the prime cause of Rheumatism.

"Fruit-a-tives" will positively cure every case of Rheumatism, when taken according to directions, 50c a box, 6 for $2.50, or trial size, 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.

In the Supreme Court of British Columbia, in the Matter of Aaron Topham, Deceased

And

In the Matter of the "Official Administrators' Act."

Notice is hereby given that under an order granted by the Hon. Mr. Justice Gregory, dated the 12th day of July, 1911, I, the undersigned, was appointed Administrator of all and singular the estate of Aaron Topham.

All parties having claims against the estate of the said deceased are requested to furnish particulars of same to me on or before the 12th day of August, 1911, and all parties indebted to the said estate are required to pay such indebtedness to me forthwith.

Dated at Victoria, B. C., this 13th day of July, A. D. 1911.

WILLIAM MONTEITH,
Official Administrator.

TEAMSTERS ALLEGE DISCRIMINATION

Claim They are Not Being Treated Fairly Under Contract Awarded to Canadian Mineral Rubber Company

Claiming that their interests were not properly protected by the city when the corporation let the contract to the Canadian Mineral Rubber company for the paving of some thirty-five miles of the city streets, a large deputation of members of the Victoria Employers' Fair Wage association waited upon the city council last night, headed by Mr. Leonard Tait and urged their claims.

Mr. Tait stated that the members of the association, mostly team owners, were not there to criticize the contract entered into with the paving company, but to ask if any protection for local team owners had been stipulated for in the contract. The association represented some 200 team owners, most of whom are heavy ratepayers. It has been reported that it will take from three to five years to complete the paving contract. If that be the case these 200 teams could be increased to 400 were the local teamsters assured they would be given employment. The company has brought in a great many teams, drivers and wagons, the ownership of which the company disclaims. Many of the drivers claim they came over on their own account with their own teams. If it is too late to grant local teamsters protection under that contract at least, Mr. Tait urged, the city should see that in future the interests of local teamsters are reasonably protected.

Mr. Tait urged also that in future when contracts for paving new streets are called for, the specifications should be open to all so that anyone may intelligently submit bids, and that in the laying of pavements care should be taken that a class of pavement which will not permit of horses slipping because of wet weather or frost, be adopted.

Wants Council Investigation

Mr. Tait, referring to the Canadian Mineral Rubber company, said that at first some local teamsters had been given work, but later they were dismissed. To Alderman Bishop's suggestion that the complaint of the association be referred to the city engineer, Mr. Tait stated that the association did not wish the matter to go to that official. It had been referred to him already. The mayor and council should themselves investigate.

Alderman H. M. Fullerton suggested the association resubmitting its complaint in writing, while Alderman Gleason, reading the specifications under which the paving company tendered, claimed the interests of the local teamsters were fully protected.

Mayor Morley advised the association members to place themselves in the place of the paving company. The latter could not be expected not to use its own teams of which it has many, and hire others in their places. The company has the plant and teams and it was for that reason that it could put in such a low bid. The intent of the agreement between the city and the company was that the company should give preference to local teamsters where it was necessary to engage other teams than its own.

Other members of the deputation claimed that the company does not own its own teams which are brought in by their owners and engaged here.

It was finally decided to request the association to put its complaint in writing and submit a copy to the paving company, the reply of which can be submitted to the council at the same time that the city engineer makes a report on the same matter.

A long communication from the secretary of the Trades and Labor council, referring to the same matter will be considered at the time the engineer and company submit their reports.

AMUSEMENTS

Crystal Theatre—"What the Tide Told" is a strong story of the sea showing the tide bringing in the evidence which cleared an innocent man of an awful crime. "Above the Clouds" is one of the prettiest scenic pictures ever shown on a curtain. "The Inn Keeper's Wife" is a drama well played. "A Wife's Letters" tells of domestic troubles. "Arthur Lunn" is a good detective story, while "The Bohemian Girl" deals of French revolution times. Miss Griffiths sings one of her popular solos. It is a well-balanced bill and you will like it. Remember the Crystal is cool and well ventilated, seats comfortable, courteous treatment.

For Receiving Bribe

OAKLAND, July 14.—Henry P. Dalton, for seventeen years county assessor of Alameda county, was found guilty here tonight on the charge of receiving a bribe. He was accused of accepting, as a bribe, $5,000 in marked bills from an official of the Spring Valley Water company.

The road from Nanaimo to Mount Benson has been put in excellent repair.

Here are Four People who Testify

That Gin Pills Positively Cure Rheumatism

Rheumatism is a dreadful disease. Only those, who have had it, can appreciate the agonizing pain—the excruciating torture—that racks the body when Rheumatism sets in. No wonder those, who have been cured of Rheumatism by GIN PILLS, are so grateful and so enthusiastic.

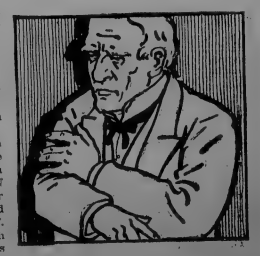

They gladly testify that GIN PILLS cured them and want all the world to try GIN PILLS.

MANY KINDS OF MEDICINE

Alex. Moore, Esq., is one of many hundreds who know that GIN PILLS will cure Rheumatism. He writes from Newburgh, Ont.

"My father had been troubled with Rheumatism for a number of years. He tried two doctors but got no relief, when my uncle insisted on him trying GIN PILLS. He purchased a box and after taking GIN PILLS for a week, found that they were giving him much relief. He then bought three more boxes, which were the means of curing him. He is now a strong man—in good health—and able to attend to his daily work—and all the credit is due to GIN PILLS."

HIS FATHER WAS TROUBLED

They know about GIN PILLS down in Nova Scotia, too. In fact, GIN PILLS are the old standby all over the Maritime Provinces because GIN PILLS really cure Rheumatism. An old gentleman in Yarmouth, N. S., says:

"I have been bothered with Rheumatism for the past year, and have taken a good many kinds of medicine, but found no relief. One day, a friend advised me to try GIN PILLS and after taking a few boxes, I felt like a new man. I want you to know how thankful I am for the relief they gave me and would advise all sufferers to take GIN PILLS."

In New Brunswick, GIN PILLS have cured hundreds of men and women of Rheumatism. Mr. Wilson, of Hartfield, N. B., is one of the many who owes his good health and strength to GIN PILLS. He writes: "It affords me great pleasure to convey not only to you, but to all sufferers from Back Ache and Rheumatism the great relief I have obtained from the use of GIN PILLS. I am sounding the praise of GIN PILLS to everyone suffering as I did." Robert M. Wilson.

COULD NOT WORK

Back to Nova Scotia for the fourth letter from D. J. Lawler, of Ogden.

"I have been troubled with Rheumatism so bad that I could not work. A doctor tended me and told me to go to the hospital, but all to no good until a cousin told me to try GIN PILLS. I did so, and after taking a few boxes, I am perfectly well."

These written words and signed statements from the people are the best possible guarantee of the fact that GIN PILLS will give prompt relief—and will completely cure—every form of Rheumatism, Sciatica, Lumbago, Pain in The Back, Kidney Trouble, Disorders of the kidneys or Bladder. You may try GIN PILLS at our risk. Write us for free sample box. If you can't get GIN PILLS from your neighborhood, send to us enclosing the regular retail price, 50c. per box, 6 boxes for $2.50. National Drug and Chemical Co. of Canada, Limited.

Herbert Cuthbert
& COMPANY

Real estate auctioneers, are favored witt instructions to sell by auction on

Thursday, July 27

At 2.30 p. m. on the premises,

The Palatial Residence and Grounds
"THE LEASOWES"

Olympia Park, St. Charles Street, Victoria, B. C., also lots 1, 6, 7, 8 and 9 in Olympia Park.

LOT 17, RESIDENCE AND GROUNDS

This residence is one of the most commodious and well arranged on the Pacific coast. It is very suitable for a large family, and especially for the home of anyone occupying a public position,. as it has unusual conveniences for entertaining on a large scale.

The ground floor has a magnificent entrance hall with huge open fireplace and handsomely carved over-mantel of solid oak; an exceptionally large drawing room and music room combined; fine library with built-in book-cases and corner seats round the entire room; billiard room with Samuel May table, cues, racks and balls; very fine dining room with handsome carved oak built-in sideboard; servants' rooms, kitchen with large steel range; butler's pantry; linen cupboards, with sliding ladder for upper shelves; toilets, large vestibules, cupboards, pantries, etc.; conservatory.

The main bedroom floor contains seven bedrooms, with five bathrooms, three of the bedrooms forming a most charming suite, with private bathroom. Off each bedroom is a large wardrobe, every one being lined with cedar, and moth proof.

The upper floor contains several secondary bedrooms, gun room, storerooms, etc.

The foundations are of massive stone with brick partitions dividing the various offices in the basement.

This contains a dairy, root cellar, wine cellar, laundry with special furnace, hot and cold water, stationary tubs, furnace room, Chinaman's room and Chinaman's bathroom.

A special feature of this property is a very fine American bowling alley, fitted up with all necessary accessories.

The residence is almost new, completed only three or four years ago, and is one of the best built and best finished houses on the coast.

The grounds consist of lot 17, 208 feet by 355 feet, partially laid out in shrubs, and containing a concrete lily pond and very fine aviary.

Lots 6 and 7 (to be hereinafter mentioned), or 8 and 9 can be sold with the house, or by themselves immediately after the house is sold.

The property occupies a most commanding situation with the finest view in Western Canada. From every window on every side of the house are magnificent views of the city, of the Mediterranean-like Straits of Juan de Fuca and snow-capped mountains—on the one side the Olympics, and on the other beautiful Mt. Baker.

It has also all the advantages of being inside the city limits, as it is just one and a quarter miles from the city hall, standing back from the newly-paved street, and within three minuetes walk from the street cars, and five minutes from Government House

It is a most healthful situation, as it stands on one of the highest points in the city, although there is no appreciable grade from the street.

Lots 6 and 7 are to be sold together. No. 7 is 60 by 180 feet, and No. 6 is the same size, except that it is a little shorter on the south size. On these two lots stand the stables and garage which are as fine as any to be found in the province, well lighted, ventilated and fitted with electric lighting and heating plants. The stables contain three large box stalls, harness rooms, coachman's room, carriage washing grid with cement basin and everything in first class order.

There are also four dog kennels with concrete floor.

Lot 8 is 60 by 111 feet— a very fine lot well laid out in shrubs and trees. No. 9 is 63 by 111.

Lot 1 has a frontage of 49 feet on St. Charles street by 120 and is one of the best residential lots now available in the city of Victoria.

The residence cost $50,000. The site on the same valuation as the adjoining property is now being held at is easily worth $25,000.

The property is vacant at the present time, and as the estate has to be closed up, it is unnecessary to point out that it **must be sold regardless of what the original cost was.** It is a most unusual opportunity for anyone requiring a home of this character to secure the greatest bargain in the West.

The auctioneers will be pleased at any time to show the property and it will be open for inspection on Monday, Tuesday and Wednesday prior to the sale from 2.30 to 4.30 o'clock in the afternoon.

Any further information can be obtained from the auctioneers at their office, 635 Fort street.

CANCELLATION OF RESERVE

NOTICE is hereby given that the reserve existing over certain lands in Range 5, Coast District, notice of which bearing date of July 13, 1908, and December 17, 1908, were published in the British Columbia Gazette in the issues of July 16, 1908, and December 17, 1908, respectively, is cancelled in so far as the same relates to lands surveyed as the east half and northwest quarter, section 8, west half of section 8 and northeast quarter section 9; section 14, north half and southeast quarter, section 15, north half and southwest quarter, section 16, section 17, fractional north half section 18, sections 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29,30, 31, 32, 33, 34, 35 and 36, all in Township 18, range 5 Coast District.

ROBERT A. RENWICK,
Deputy Minister of Lands.
Department of Lands, Victoria,
June 16, 1911.

CANCELLATION OF RESERVE

NOTICE is hereby given that the reserve existing over certain lands situated in Range 5, Coast District, notice of which bearing date of December 17, 1908, was published in the British Columbia Gazette in the issue of December 17, 1908, is cancelled in so far as the same relates to lands surveyed as the north half and southwest quarter section 9, north half section 10, north half and southeast quarter setion 11; sections 12, 13, 14, 15, 16, 17, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29 and 30, all in Township 19, Range 5, Coast District.

ROBERT A. RENWICK,
Deputy Minister of Lands.
Department of Lands, Victoria,
June 16. 1911.

NOTICE

PUBLIC NOTICE is hereby given that, under the authority contained in section 131 of the "Land Act," a regulation has been approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second-class land at $10 and $5 per acre, respectively.

This regulation further provides that the prices fixed therein shall apply to all lands with respect to which the application to purchase is given favorable consideration after this date, notwithstanding the date of such application or any delay that may have occurred in the consideration of the same.

Further notice is hereby given that all persons who have pending applications to purchase lands under the provisions of section 34 or 36 of the "Land Act" and who are not willing to complete such purchases under the prices fixed by the aforesaid regulation shall be at liberty to withdraw such applications and receive refund of the moneys deposited on account of such applications.

WILLIAM R. ROSS,
Minister of Lands.
Department of Lands, Victoria, B.C.,
April 3rd, 1911.

CANCELLATION OF RESERVE.

NOTICE is hereby given that the reserve existing over vacant Crown lands in Cariboo District, situate on the South Fork of the Fraser River, notice of which, bearing date of June 26th, 1907, was published in the British Columbia Gazette dated August 29th, 1907, is canvelled in so far as the same relates to lands surveyed as lots numbered 3,040, 3,040a, 3,039, 3,049, 3,042, 3,051, 3,052, 3,043, 3,041, 3,045, 3,044, 3,077, 3,076, 3,082, 3,078, 3,079, 3,080, 3,081, 3,083, 3,088, 3,085, 3,086, 3,087a, 3,087, 3,091, 3,099, 3,100, 3,089, 3,108, 3,112, 3,129, 3,130, 3,132, 3,133, 4,135, 3,134, 3,035, 3,037, 3,036, 3,038, 3,046, 3,047, 3,054a, 3,054, 3,057, 3,053, 3,084, 3,097, 3,105, 3,101, 3,095, 3,096, 3,098, 3,106, 3,102, 3,103, 3,090a, 3,090, 3,111, 3,115, 3,124, 3,125, 3,126, 3,119a, 3,119, 3,116, 3,109, 3,110, 3,104, 3,107, 3,046a, 3,059, 3,048, 3,055, 3,056, 3,066, 3,065a, 3,063, 3,062, 3,061, 3,060, 3,058, 3,065, 3,067, 3,064, 3,069, 3,070, 3,071, 3,073, 3,068, 3,072, 3,075, 3,074, 3,092, 3,094, 3,093, 3,093a, 3,113, 3,117, 3,120, 3123, 3,127, 3,131, 3,128, 3,122, 3,121, 3118 and 3,114.

CORPORATION OF THE DISTRICT OF OAK BAY.

ELECTION OF COUNCILLOR.

PUBLIC NOTICE IS HEREBY GIVEN to the electors of the Municipality of the District of Oak Bay, that I require the presence of the said electors at the Council Chamber, on the 21st day of July, 1911, at 12 o'clock noon, for the purpose of electing a person to represent them in the Municipal Council as Councillor.

The Mode of Nomination of Candidate Shall Be as Follows:

The candidate shall be nominated in writing; the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and 2 p. m. of the day of the nomination, and in the event of a poll being necessary, such poll will be opened on the 24th day of July, 1911, at the schoolhouse, Oak Bay avenue, from 9 a. m. to 7 p. m., of which every person is hereby required to take notice and govern himself accordingly.

The qualifications for Councillor shall be his being a male British subject and having been for the three months next preceding the day of his nomination the registered owner, in the Land Registry office, of land or real property situate within the municipality of the assessed value, on the last municipal or provincial assessment roll, of two hundred and fifty dollars or more over and above any registered judgment or charge, or being a homesteader, lessee from the Crown, or pre-emptor, who has resided within the municipality for the space of one year or more immediately preceding the nomination, and who is assessed for five hundred dollars or more on the last municipal or provincial assessment roll, over and above any registered judgment or charge, or being a homesteader, lessee from the Crown or pre-emptor, who has resided within the municipality for a portion of one year immediately preceding the nomination, and who during the remainder of said year has been the owner of said land, of which he formerly was a homesteader, lessee from the Crown or pre-emptor, and who is assessed for five hundred dollars or more on the last municipal or provincial assessment roll, over and above any registered judgment or charge, and being otherwise qualified as a voter.

Given under my hand at Oak Bay, B. C., the 11th day of July, 1911.

J. S. FLOYD,
Returning Officer.

RESERVE

NOTICE is hereby given that all vacant Crown lands not already under reserve, situated within the boundaries of the Land Recording Districts of Cariboo and Lillooet, and the Kamloops Division of Yale Land Recording District, are reserved from any alienation under the "Land Act" except by pre-emption.

Fisherman Rescued

VANCOUVER, July 14.—Clinging to his upturned boat for eleven hours in the Gulf of Georgia, Dan Ronald, a fisherman, was rescued by a tug. The seams of the little craft opened while its owner was voyaging to Victoria, and he clambered on the keel, where he remained until the tug came in sight.

Light and Power Fight

WINNIPEG, July 14.—The Street Railway Company has announced that it will fight the city for the electric light and power business by meeting every cut in rates. In a statement tse company warns the public against allowing the city to contract for conduit connections with homes.

While working in the South Wellington mines on Tuesday last, Samuel Wardle, a miner, was very seriously injured about the head and body by a rockfall. His escape from instant death was almost miraculous.

NOTICE TO CONTRACTORS

Addition, Parliament Buildings.

SEALED TENDERS, superscribed "Addition, Parliament Buildings," will be received by the Honorable the Minister of Public Works up to noon of Tuesday, the 15th day of August, 1911, for the erection and completion of an addition to the Parliament Buildings, Victoria.

Drawings, specifications, contract and forms of tender, may be seen on and after 15th July at the offices of the Provincial Timber Inspector, Vancouver; the Government Agent, New Westminster; and the Department of Public Works, Victoria.

Intending tenderers can, by applying to the undersigned, obtain one copy of the drawings and one copy of the specifications, by depositing a marked cheque for $500; said deposit to be refunded on the return of drawings and specification with tender.

Each tender must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works, in the sum of $25,000, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

The successful tenderer shall furnish a bond of a guarantee company satisfactory to the Minister of Public Works, equal to ten (10) per cent. of the contract amount, for the due fulfillment of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Public Works Engineer.
Department of Public Works, Victoria, B. C., 28th June, 1911.

GOOD BUYS

Business Properties

GOVERNMENT STREET

Various properties extending from Fort street to the junction of Government and Douglas streets, at the fountain, and from $400 to $3500 per front foot. These are the very best quotations to be had.

DOUGLAS AND HERALD

Several very attractive offers on these two streets of which particulars on application.

STORE STREET

Two corners, one including waterfront. These are choice quotations.

FORT STREET

Inside and near inside, several quotations of each on good terms.

VIEW STREET CORNER

120 feet on View by 60 feet on Vancouver, at a price that will earn a handsome profit within a few months.

BROUGHTON STREET.

60x120, between Blanchard and Quadra, at $12,000, on easy terms of payment. This is the lowest quotation in this block.

HUMBOLDT STREET

Facing the Empress hotel and adjacent to the new Union club building. This is a property which may be had on very easy terms and is a sure profit winner.

COOK STREET

140x180, corner of Cook and Caledonia avenue. Cook street between Pandora and Princess is merging into a cross business street. This property can be purchased for $18,000, which makes it the cheapest and most attractive offering in this district.

Also a large lot of offerings on Yates, Langley, Pandora, Belleville, Blanchard, Quadra, Chatham, Discovery, Bay, King's Road, etc.

Waterfront

Several very attractive waterfrontages on the northeast and west sides of the harbor. These are safe investments. You can increase business areas as you please but you cannot increase waterfrontage. Particulars on application.

Residential

Three houses in the choicest part of James Bay, near the park and beach at from $5000 to $6000.

Two handsome houses on large lots facing Dallas road, for $11,000 each.

A choice large corner on Dallas road for $5000.

New and modern house on Rudlin avenue, choice situation, for $5000.

VICTORIA WEST.

Three houses in Victoria West with one acre of land each, at from $6,500 to $10,500.

Several other choice quotations of houses and lots in Victoria West, including two fine business corners.

30x120, corner King's road and Work street for $1,500, on terms.

Acreage

COBBLE HILL ACREAGE.

135 Acres of good land within a few minutes walk of Cobble Hill station. There is a wagon road on either side and a railroad on either side. The land takes a gentle slope to the east, while the hills to the west protect it. It will make an ideal site for growing large and small fruits. At the rear of the property is a bunch of fine fir timber, sufficient, it is stated to pay for the whole property. Double the price is asked for adjacent land not as favorably situated. Price $9,000, on terms of one-third cash and balance on mortgage for a term of years at 7 per cent. It is possible to divide this acreage into ten-acre blocks and obtain $150 per acre therefor.

SOOKE DISTRICT ACREAGE.

260 Acres of land fronting on the sea near Beecher Bay and within a short distance of the Canadian Northern Railway. This land is uncleared, with a lot of fine standing timber at the north end, about one-third suitable for cultivation. There is a beautiful outlook from the property. The price is $25 per acre.

SUBURBAN ACREAGE.

Five Acres on Wilkinson road, just off Burnside road. Price $4,000.

Eleven Acres off Wilkinson road and within few minutes B. C. Electric station, partly cleared, with three-room cottage. Price on easy terms. $5,000.

Large block of acreage, just without the three-mile circle, suitable for subdivision, at a fair price and with easy terms of payment. The land is all cleared and cutivated, and is of the very best in Victoria District.

WANTED, a purchaser for corner lot, 120 feet frontage; very cheap; about 80 yards from post office. Box 725 Colonist.

WE have a splendid subdivision in Cleveland, 3 miles from the city of Calgary; the car line will go within two blocks of the property this year; lots are from $100 upwards, each purchaser being under obligation to take two lots; the terms of payment are 20 per cent. down and the balance 5 per cent. per month. This we believe is a splendid chance for the small investor to realize quick profits in a short time, as we confidently expect by Christmas time the lots will be selling at an advance of 50 per cent. Beckett & Major.

WE have lots from $100 to $50,000 cash or easy terms. Beckett and Major.

WHY are investors buying Hillside ave. property? Simply because it is destined to become, in the very near future, one of the main arteries of trade into the city. Victoria is and always must grow in this direction, this being the line of least resistance. For this reason alone, and there are others too, investors will make handsome profits by getting in now on the gronud floor. We have the cheapest property on the street exclusively for sale. See us now for large and quick profits. A sample: 70ft. and 8 rooms, close to Douglas $8,500. Will soon go to ten thousand. Harris & Sturgess, next Merchants' Bank.

WILL build you a house, if you own the lot; you can pay me off by the month. This is an easy way to own your home without money. I am building several now, which you can see; let us talk it over. A. Johns, 641 Manchester ave.; phone 1469.

7-ROOMED house and 8 acres on E. & N. railway; close to school and church; 3 acres under cultivation; 100 fruit trees, balance in vegetables. Good market close to hand. Excellent shooting and fishing. Cheapest buy on Vancouver Island. Apply owner, P.O. Box 828 Victoria.

Vancouver Office—Winch Building.

NORTHERN Terminus of Vancouver Island Railways—Hardy Bay.

THERE is every reason to believe that Hardy Bay will in the next few years be the terminus of the Canadian Pacific and Canadian Northern Railways on Vancouver Island. Why not invest now when prices are low. Why wait and pay high prices, when the railways are completed, in, say, three years? There is no better investment than acreage in the vicinity of Hardy Bay. Land within 7 miles of Victoria is selling for $500 per acre. We have land as good, for sale, in blocks of 320 acres and over for $10 per acre, payable over two years without interest. Ten per cent of the land consists of open meadows, the soil is rich and well watered with streams and lakes, the clearing is light, and on the greater portion of the land the merchantable timber does not exceed 500ft. per acre; the land can be easily brought into cultivation. We have had the land cruised three times and have reports and photographs. For full particulars apply to our Victoria or Vancouver offices.

SHAWNIGAN Lake waterfront, 10 acres, with house; only $2,500, terms.

CAMERON Lake, near—80 acres, $25 per acre.

COMOX—532 acres, one-third grass and open land; only $25 per acre.

ARROW Lakes—2,240 acres; fine for fruit; $40 per acre.

NICOLA—1,400 acres; 800 acres can be irrigated; cattle, etc.; fine for fruit farms; on railway.

ALBERNI—160 acres, good land; $3,800; terms $1,800 cash, balance 6 per cent.

ISLAND, 66 acres, house, 10 acres cleared; $5,000.

SHEEP ranch—1,000 sheep, $1,850 acres, crown grant; $16 per acre, including sheep; on coast.

NANAIMO—Farm, 150 acres, $2,000; house $8,000.

NOTICE TO CONTRACTORS

Roadways, Curbs, Etc., Court-House, Vancouver

SEALED TENDERS, superscribed "Tender for Roadways, Curbs, etc., New Court-house, Vancouver," will be received by the Hon. The Minister of Public Works up to noon of Monday, 17th day of July, 1911, for the construction of Roadways, Curbs, etc., of the New Court-house, Vancouver.

Plans, specifications, contract, and forms of tender may be seen at the offices of Messrs Dalton & Eveleigh, architects, Davis Chambers, Vancouver, and the Department of Public Works, Victoria.

The firm whose tender is accepted will have to deposit with their tender an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for a sum equal to ten per cent. of the amount of their tender, within three days of notification of acceptance of tender.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Public Works Engineer.
Department of Public Works,
Victoria, B.C., 30th June, 1911.

CANCELLATION OF RESERVE.

Notice is hereby given that the reserve existing by reason of the notice published in the British Columbia Gazette of the 27th December, 1907, over lands situated on one of the Islands in the Peare Group of Islands, Rupert District, formerly covered by Timber License No. 27806 is cancelled and that the said lands will be open to location by preemption only, after midnight on July 13th, 1911.

ROBT. A. RENWICK,
Deputy Minister of Lands.
Lands Department, Victoria, B. C., April, 10th, 1911.

CANCELLATION OF RESERVE.

Notice is hereby given that the reserve established over certain lands in tice of which bearing date June 30th, 1908, was published in the British Columbia Gazette on July 2nd, 1908, is cancelled in so far as the same relates to the following surveyed lands in township 48 and 50, Lillooet District, namely, Fractional Sections 2, 3, Section 43, Fractional Section 5, Fractional E. ½ of Section 6, Fractional Section 7, Sections 8, 9, 10, Fractional Sections 11, 12, 13; Sections 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, Fractional W. ½ of Section 24, Fractional W. ½ of Section 25, Fractional Section 26, Sections 27, 28, 29, 30, 31, 32, 33, 34, Fractional Section 35 and Fractional W. ½ of Section 36, all in township 48; Fractional Sections 2, 3, 6, 7, 10, 11, 12, Sections 13, 14, Fractional Sections 15, 16, 17, 18, 19, 20, 21, Sections 22, 23, 24, 25, 26, 27 28, 29 and Fractional Sections 30, 31, 32, 33, 34, 35 and 36, all in township 50, to permit of the said lands being located by pre-emption entry only.

WATER NOTICE

NOTICE is hereby given that an application will be made under Part V. of the Water Act, 1909, to obtain a license in the district, Nanoose, Vancouver Island.

(a) The name of applicant: Joseph Alphonse McKercher.

(b) The name of stream: Small Creek, at north end of the E. and N. railway booming grounds, Nanoose Bay.

(c) The point of diversion: Nanoose Bay.

(d) The quantity of water applied for: one cubic foot per second.

(e) The character of the proposed works: Sawmill.

(f) The premises on which the water to be used: E. and N. Railway company's foreshore opposite block No. 142 and lot 117.

(g) The purposes for which the water is to be used: Steam and general purposes.

(i) The water will be used at mouth of creek.

(k) This notice was posted on the 13th of May, 1911, and application will be made to the commissioner on the 22nd day of June, 1911, at 11 o'clock a. m.

J. A. McKERCHER,
Lumberman.
P. O. Drawer 520, Vancouver, B. C.

TO THE PUBLIC

The undersigned lumber manufacturers and dealers hereby give notice that on and after the 24th day of June, A. D. 1911, they will in all cases serve the owners of the premises being improved, with notice of claim of lien for materials supplied the contractor or builder in charge of the work.

Bulman Lumber Co., Limited; Cameron Lumber Co., Limited; Canadian Puget Sound Lumber Co., Ltd.; James Leigh & Sons; Lemon Gonnason Co., Limited; Moore & Whittington; Moore Whittington Lumber Co., Ltd.; Saanich Lumber Co., Limited; Shawnigan Lake Lumber Co., Ltd.; Westholme Lumber Co., Ltd.; The Woodworkers, Ltd.

June 19th, 1911.

WATER NOTICE

We, Ocean Falls Co., Limited, of 711 Dominion Trust Building, Vancouver, B. C., an incorporated Pulp, Paper and Power Company, give notice that on Monday, the first day of May, 1911, we intend to apply to the Water Commissioner at his office in Victoria for a license to take and use 1,100 cubic feet of water per second from Link River, which empties into Cousins Inlet in the Victoria water division of the Coast district. The water is to be taken from the river about 500 feet from the mouth of Link River and is to be used on Lot 31, Range 3, Coast District, for paper and other industrial plants, hydraulic power and pulp mill.

The license applied for is also for storage of the water in Link Lake, which empties into the aforesaid Link River.

(Signed) OCEAN FALLS CO., Ltd.

NOTICE

PUBLIC NOTICE is hereby given that, under the authority contained in section 131 of the Land Act, a regulation was approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second class lands at $10 and $5 per acre respectively.

This regulation further provided that the prices fixed therein should apply to all lands with respect to which the application to purchase were given favorable consideration after the date of said regulation, namely, April 3, 1911.

Further notice is now given that by virtue of a regulation approved by the Lieutenant-Governor-in-Council on the 10th of May, 1911, that the regulation dated the 3rd April, 1911, be held not to apply to applications to purchase vacant Crown lands which were received by the Assistant Commissioners of Lands on or before the said April 3rd, 1911, and with respect to which the required deposit of fifty cents per acre had been received by said Commissioners on or before the said April 3rd, 1911.

ROBT. A. RENWICK,
Deputy Minister of Lands.
Department of Lands,
Victoria, B. C., 16th of May, 1911.

CANCELLATION OF RESERVE.

Notice is hereby given that the reserve of a parcel of land situated on Graham Island, notice of which appeared in the British Columbia Gazette of the 25th of February, 1909, being dated 23rd February, 1909, is cancelled to permit of the lands being acquired by preemption only and for no other purpose.

ROBT. A. RENWICK,
Deputy Minister of Lands.
Department of Lands, Victoria, B. C.,
April 5th, 1911.

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Matter of the Estate of Fenton Newberry Costin, Deceased.

NOTICE is hereby given that all persons having any claims or demands against the late Fenton Newberry Costin, who died on or about the 8th day of April, A. D., 1911, at the City of Victoria in the Province of British Columbia, are required to send by post prepaid or to deliver to the undersigned, Elliott, Maclean & Shandley, solicitors for the administratrix, Margaret Grace Costin, of the estate of the said Fenton Newberry Costin their names and addresses and full particulars in writing of their claims and statements of their accounts and the nature of the security, if any, held by them verified by a statutory declaration.

And take notice that after the 24th day of July, 1911, the said Margaret Grace Costin will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which she shall then have had notice; and that she, the said Margaret Grace Costin, will not be liable for the said assets or any part thereof to any persons of whose claims she shall not then have received notice.

Dated at Victoria, B. C., the 14th day of June, A. D., 1911.

ELLIOTT, MACLEAN & SHANDLEY.

LIQUOR ACT, 1910— [illegible]

VICTORIA WATER WORKS

Notice is hereby given, that on and after the 17th inst., all water accounts will be due and payable on the day on which they are rendered, subject to a discount of 10 per cent. if paid on or before the 15th day thereafter. The old rule whereby accounts were payable on the last day of the month, subject to a discount if paid on or before the 15th of the month next following has been repealed.

JAS. L. RAYMUR,
Water Commissioner.
City Hall, 14th July, 1911.

NOTICE.

That the first sitting of the Annual Court of Revision of the Municipality of the City of Victoria will be held in the Council Chamber, City Hall, on Monday the 17th day of July, 1911, at 10 o'clock a. m., for the purpose of hearing complaints against the assessment as made by the Assessor and for revising and correcting the Assessment Roll.

WELLINGTON J. DOWLER,
C. M. C.
Victoria, B. C., City Clerk's Office, June 15th, 1911.

PUBLIC NOTICE

PUBLIC NOTICE is hereby given that the Corporation of the City of Victoria has deposited with the Minister of Public Works of Canada a plan and description of certain properties which the Corporation proposes after the expiration of thirty (30) days from the date of the first publication of this notice in the Canada Gazette, to make application to purchase, under the provisions of Section 34 of the Expropriation Act of Canada, and has deposited a duplicate of the said plan and description in the office of the Registrar General of Titles for Victoria district.

The lands for which such application to purchase will be made are described as follows:

All and singular that certain parcel or tract of tide lands situate, lying and being composed of a portion of The Arm, Victoria Harbor, known as The Creek and which may be more particularly described as follows, that is to say:

Commencing at a point on the westerly limit of Bridge Street in the City of Victoria, and Province of British Columbia, distant one hundred and seventeen (117) feet from its intersection with the northerly limit of David Street, the said point being at high water mark, thence north thirteen degrees and seventeen minutes (N 13° 17′ W) West ninety-one and one-half (91½) feet, thence north forty-eight degrees and forty-two minutes East (N 48° 42′ E) forty-three and nine-tenths feet (43.9), thence north one hundred and five (105) feet; thence north four degrees and two minutes west (N 4° 02′ W) seventy-one and two-tenths (71.2) feet; thence north nineteen degrees and fifty-nine minutes east (N 19° 59′ E) thirty-four and three-tenths feet (34.3), thence north ten degrees and fifty-five minutes west (N 10° 55′ W) fifty-eight (58) feet; thence north thirty-four minutes west (N 0° 34′ W) one hundred (100) feet; thence south fifty-five degrees and twenty-six minutes west (S 55° 26′ W) fifty-four and six-tenths (54.6) feet thence south twenty-two degrees and thirty minutes west (S 22° 30′ W) seventy-five and eight-tenths (75.8) feet; thence south five degrees and three minutes east (S 5° 03′ E) thirty-four and two-tenths (34.2) feet; thence south sixteen degrees and thirty minutes west (S 16° 30′ W) twenty-eight and two-tenths (28.2) feet; thence south thirty-three degrees and thirty-two minutes west (S 33° 32′ W), fifty-one and six-tenths (51.6) feet; thence south forty-one degrees and four minutes west (S 41° 04′ W) forty-six and four-tenths (46.4) feet; thence south thirty-seven degrees and four minutes west (S 37° 04′ W) sixty-one and four-tenths (61.4) feet; thence south forty degrees and forty-four minutes east (S 40° 44′ E) two hundred and fifty-seven feet (257) more or less to the point of commencement, the same containing ninety-eight one hundredths (98-100) acres more or less.

Dated June 30th, A. D. 1911.
